- I, Betty Reed, supervisor of the Division of Savings and Loan Associations, do promulgate and adopt at Olympia, Washington, the annexed rules relating to savings and loans, adding new sections WAC 419-60-010 through 419-60-030, establishing procedures for application by foreign savings and loans to establish de novo branches in Washington state.
- I, Betty Reed, Supervisor, Division of Savings and Loan Associations, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is new sections WAC 419-60-010 through 419-60-030 are necessary to implement the requirements of RCW 33.32.060 that sets forth the principle that no foreign savings and loan association shall be permitted to do business in this state on more favorable terms than Washington associations are permitted in the state in which the foreign association is organized. Further, RCW 33.32.030 provides that foreign associations shall conduct business in accordance with the requirements of the supervisor. Changes in various statutes in other states now allow de novo branching by Washington associations across certain state lines

through an application process. In anticipation of immediate branching efforts by foreign associations, the supervisor finds that lack of rules outlining application procedures and requisite reimbursement for required investigations would leave the Division of Savings and Loan Associations without adequate funding to perform its statutorily mandated duties of regulating activities of foreign savings and loans.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated under the general rule—making authority of the supervisor of the Division of Savings and Loan Associations, Department of General Administration, as authorized in RCW 33.04.025.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules. APPROVED AND ADOPTED September 29, 1987.

Supervisor

NEW SECTION

WAC 50-12-210 PROMULGATION. The division of banking, hereinafter referred to as the "division," after due and proper notice, and pursuant to the provisions of RCW 30.04.111 hereby adopts and promulgates the following rules and regulations, effective September 9, 1987.

NEW SECTION

WAC 50-12-220 PURPOSE. These rules and regulations are intended to prevent one individual, or relatively small group, from borrowing an unduly large amount of the bank's funds. Further, the intention is also to safeguard the bank's depositors by spreading the loans among a relatively large number of persons engaged in different lines of business.

NEW SECTION

WAC 50-12-230 DEFINITIONS. (1) The term "person" shall include an individual, sole proprietor, partnership, joint venture, association, trust, estate, business trust, corporation, sovereign government or agency, instrumentality, or political subdivision thereof, or any similar entity or organization.

- (2) The term "loans and extensions of credit" means any direct or indirect advance of funds to a person made on a basis of any obligation of that person to repay the funds, or repayable from specific property pledged by or on behalf of a person. "Loans and extensions of credit" also includes a "contractual commitment to advance funds" as that term is defined in this section, and includes a renewal, modification, or extension of the maturity date of a loan or extension of credit.
- (3) The term "contractual commitment to advance funds" means:
- (a) An obligation on the part of the bank to make payments (directly or indirectly) to a designated third party contingent upon a default by the bank's customer in the performance of an obligation under the terms of that customer's contract with the third party; or
- (b) An obligation to guarantee or stand as surety for the benefit of a third party. The term includes, but is not limited to, standby letters of credit, guarantees, puts, and other similar arrangements. Undisbursed loan funds, loan commitments not yet drawn upon which do not fall under this definition, and commercial letters of credit or similar instruments are not considered contractual commitments to advance funds.
- (4) The term "readily marketable collateral" means financial instruments and bullion which are saleable under ordinary circumstances with reasonable promptness at a fair market value determined by daily quotations based on actual transactions on an auction or a similarly available daily bid and ask price market.
- (5) The term "financial instruments" shall include stocks, notes, bonds, and debentures traded on a national securities exchange, "OTC margin stocks" (as defined in Regulation U of the Federal Reserve Board), commercial paper, negotiable certificates of deposit, bankers' acceptances, and shares in money market and mutual

funds of the type which issue shares in which banks may perfect a security interest.

- (6) The term "current market value" means the bid or closing price listed for an item in a regularly published listing or an electronic reporting service.
- (7) The term "capital" will include the amount of common stock outstanding and unimpaired, the amount of preferred stock outstanding and unimpaired, and capital notes or debentures issued pursuant to chapter 30.36 RCW.
- (8) The term "surplus" shall include capital surplus, reflecting the amounts paid in excess of the par or stated value of capital stock, or amounts contributed to the bank other than for capital stock, and amounts transferred to surplus from undivided profits pursuant to resolution of the board of directors.
 - (9) The term "subsidiary" means:
- (a) Any company twenty-five percent or more of whose voting shares (excluding shares owned by the United States or by any company wholly owned by the United States) is directly or indirectly owned or controlled by such person, or is held by it with power to vote:
- (b) Any company the election of a majority of whose directors is controlled in any manner by such person; or
- (c) Any company with respect to the management or policies of which such person has power, directly or indirectly, to exercise a controlling influence, as determined by the division, after notice and opportunity for hearing.

NEW SECTION

WAC 50-12-240 GENERAL LIMITATIONS. The total loans and extensions of credit by a state bank or trust company to a person outstanding at one time and not fully secured by collateral in a manner defined in WAC 50-12-250 shall not exceed twenty percent of the capital and surplus of the bank or trust company.

NEW SECTION

WAC 50-12-250 GENERAL LIMITATION-LOANS FULLY SECURED BY READILY MAR-KETABLE COLLATERAL. (1) Loans or extensions of credit by a state bank to a person outstanding at one time and fully secured by readily marketable collateral having a market value, as determined by reliable and continuously available price quotations, shall not be subject to any limitations based on capital and surplus. However, if the total of such loans and extensions of credit, together with loans made under general limitations pursuant to WAC 50-12-040 exceed forty-five percent, the division of banking will review the credits as a possible concentration, with regard to both risk diversification within the bank's asset structure and diversification or other risk in the marketable collateral securing the loan. This limitation shall be separate and in addition to the general twenty percent limitation set forth in WAC 50-12-240.

(2) Each loan or extension of credit based on the foregoing limitation shall be secured by readily marketable collateral having a current market value of at least

one hundred fifteen percent of the amount of the loan or extension of credit at all times.

- (3) Financial instruments may be denominated in foreign currencies which are freely convertible to United States dollars. If collateral is denominated and payable in a currency other than that of the loan or extension of credit which it secures, the bank's procedures must require that the collateral be revalued at least monthly, using appropriate foreign exchange rates, in addition to being repriced at current market value.
- (4) Each bank must institute adequate procedures to ensure that the collateral value fully secures the outstanding loan at all times. If collateral values fall below one hundred fifteen percent of the outstanding loan, to the extent that the loan is no longer in conformance with this section and exceeds the general twenty percent limitation, the loan must be brought into conformance within five business days, except where judicial proceedings, regulatory actions, or other extraordinary occurrences prevent the bank from taking actions.

NEW SECTION

WAC 50-12-260 COMBINING LOANS TO SEPARATE BORROWERS. (1) Loans or extensions of credit to one person will be attributed to other persons when:

- (a) The proceeds of the loans or extensions of credit are to be used for the direct benefit of the other person or persons; or
- (b) A "common enterprise" exists between the persons.
- (2) Determination of whether a "common enterprise" exists depends upon a realistic evaluation of the facts and circumstances of the particular transaction. A "common enterprise" is presumed to exist when:
- (a) The expected source of repayment for each loan or extension of credit is the same for each person; or
- (b) Separate persons borrow from a bank for the purpose of acquiring a business enterprise of which those persons will own more than fifty percent of the voting securities; or
- (c) The loans or extensions of credit are made to persons who are related by common control and (i) are engaged in interdependent business or (ii) there is substantial financial interdependence among them.
- (3) Substantial financial interdependence occurs when fifty percent or more of one person's gross receipts or gross expenditures (on an annual basis) are derived from transactions with one or more persons related through common control. Gross receipts and expenditures include gross revenues/expenses, intercompany loans, dividends, capital contributions, and similar receipts or payments.
- (4) Throughout this section the term "control" is presumed to exist when one or more persons acting in concert directly or indirectly:
- (a) Own, control, or have power to vote twenty-five percent or more of any class of voting securities of another person;
- (b) Exercise a controlling influence over the management or policies of another person; or

(c) Control in any manner the election of a majority of the directors, trustees or other persons exercising similar functions of another person. "Common control" includes control of one person by another person.

NEW SECTION

WAC 50-12-270 LOANS TO CORPORATIONS. Loans or extensions of credit to a person and its subsidiaries or to subsidiaries of one person need not be combined where the bank has determined that the person and subsidiaries involved are not engaged in a "common enterprise." If members of a corporate group (a person and all its subsidiaries) are either:

- (1) Substantially financially interdependent; or
- (2) Engaged in "common enterprise," then the total amount of loans or extensions of credit to these persons must be attributed to each of the other persons in the corporate group. Conversely, if members of a corporate group are neither substantially financially interdependent nor engaged in "common enterprise," then the loans to different members are separately subject to a twenty percent limitation. In no event may the total amount of loans or extensions of credit by a state bank to a corporate group exceed fifty percent of the bank's capital and surplus.

NEW SECTION

WAC 50-12-280 LOANS TO PARTNERSHIPS, JOINT VENTURES, AND ASSOCIATIONS. (1) Loans or extensions of credit to a partnership, joint venture, or association shall, for purposes of WAC 50-12-210 through 50-12-300, be considered loans or extensions of credit to each member of such partnership, joint venture, or association.

- (2) Loans or extensions of credit to members of a partnership, joint venture, or association are considered loans or extensions of credit to the partnership, joint venture, or association if one or more of the tests presented in WAC 50-12-260(1) is satisfied with respect to one or more of the members. However, loans to members of a partnership, joint venture or association will not be attributed to other members of the partnership, joint venture, or association unless one or more of the tests set forth in WAC 50-12-260(1) is satisfied with respect to such other members. The tests set forth in WAC 50-12-260(1) shall be deemed satisfied when loans or extensions of credit are made to members of a partnership, joint venture, or association for the purpose of purchasing an interest in such partnership, joint venture, or association.
- (3) The rule set forth in subsection (1) of this section is not applicable to limited partners in limited partnerships or to members of joint ventures if such partners or members, by the terms of the partnership or membership agreement are not to be held liable for the debts or actions of the partnerships, joint venture, or association. However, the rules set forth in WAC 50-12-260(1) are applicable to such partners or members.

NEW SECTION

WAC 50-12-290 EXCEPTIONS TO THE LENDING LIMITS. (1) Discount of commercial or business paper: Loans or extensions of credit arising from the discount of commercial or business paper evidencing an obligation to the person negotiating it with recourse shall not be subject to any limitation based on capital and surplus.

- (a) This exception applies to negotiable paper given in payment of the purchase price of commodities in domestic or export transactions purchased for resale or to be used in the fabrication of a product, or to be used for any other business purposes which may reasonably be expected to provide funds for payment of the paper. Loans or extensions of credit arising from the discount of paper must bear the full recourse endorsement of the owner. However, loans or extensions of credit arising from the discount of such paper in export transactions may be endorsed by such owner without recourse or with limited recourse, or may be accompanied by a separate agreement for limited recourse; provided, that if transferred without full recourse the paper must be supported by an assignment of appropriate insurance covering the political, credit, and transfer risks applicable to the paper.
- (b) Since the basis for unlimited credit stems from the anticipated sale of a commodity to provide funds for payment of the paper, failure to pay either principal or interest when due removes the reason for unlimited credit. Consequently, although the line of credit to the maker or endorser should not be classified as excessive by reason of such default, the paper on which the default occurred must thereafter be taken into consideration in determining whether additional loans or extensions of credit may be made. These same principles of disqualification apply to any renewal or extension of either the entire loan or an installment thereof.
- (2) Bankers' acceptances: The purchase of banker's acceptances of the kind described in section 13 of the Federal Reserve Act and issued by other banks shall not be subject to any limitation based on capital and surplus.
- (a) Acceptances by a state bank of "ineligible" drafts, i.e., time drafts which do not meet the requirements for discount with a Federal Reserve Bank, are subject to the general twenty percent limitation of RCW 30.04.111.
- (b) During any period within which a state bank holds its own acceptances, eligible or ineligible, having given value therefor, the amount given is considered to be a loan or extension of credit to the customer for whom the acceptance was made and is subject to the lending limits. To the extent that a loan or extension of credit created by discounting the acceptance is covered by a bona fide participation agreement, the discounting bank need only consider that portion of the discounted acceptance which it retains as being subject to appropriate limitations.
- (3) Loans secured by bills of lading or warehouse receipts covering readily marketable staples: Loans and extensions of credit secured by bills of lading, warehouse receipts, or similar documents transferring or securing title to readily marketable staples shall be subject to a

- limitation of thirty-five percent of capital and surplus in addition to the general limitations if the market value of the staples securing each additional loan or extension of credit at all times equals or exceeds one hundred fifteen percent of the outstanding amount of such loan or extension of credit. The staples shall be fully covered by insurance whenever it is customary to insure such staples.
- (a) This exception allows a state bank to make loans or extensions of credit to one person in an amount equal to thirty-five percent of its capital and surplus in addition to the general twenty percent limitation.
- (b) A readily marketable staple means an article of commerce, agriculture, or industry of such uses as to make it the subject of dealings in a ready market with sufficiently frequent price quotations as to make (i) the price easily and definitely ascertainable, and (ii) the staple itself easy to realize upon sale at any time at a price which would not involve any considerable sacrifice from the amount at which it is valued as collateral. Staples eligible for this exception must be nonperishable, may be refrigerated or frozen, and must be fully covered by insurance when such insurance is customary. This exception is intended to apply primary to basic commodities, such as wheat and other grains, cotton, wool, and basic metals such as tin, copper, lead, and the like. Whether a commodity is readily marketable depends upon existing conditions and it is possible that a commodity that qualifies at one time may cease to quality at a later date. Fabricated commodities which do not constitute standardized interchangeable units and do not possess uniformly broad marketability do not qualify as readily marketable staples.
- (c) Commodities sometimes fail to qualify as nonperishable because of the manner in which they are handled or stored during the life of the loan or extension of credit. Accordingly, the question as to whether a staple is nonperishable must be determined on a case—by—case basis.
- (d) This exception is applicable to a loan or extension of credit arising from a single transaction or secured by the same staples for (i) not more than ten months if secured by nonperishable staples, and (ii) not more than six months if secured by refrigerated or frozen staples.
- (e) The important characteristic of warehouse receipts, order bills of lading, or other similar documents is that the holder of such documents has control of the commodity and can obtain immediate possession. (However, the existence of brief notice periods, or similar procedural requirements under state law, for the disposal of the collateral will not affect the eligibility of the instruments for this exception.) Only documents with these characteristics are eligible security for loans under this exception. In the event of default on a loan secured by one of these documents, the bank must be in a position to sell the underlying commodity and promptly transfer title and possession to the purchaser, thus being able to protect itself without extended litigation. Generally, documents qualifying as "documents of title" under the Uniform Commercial Code are "similar documents" qualifying for this exception.

- (f) Field warehouse receipts are an acceptable form of collateral when they are issued by a duly bonded and licensed grain elevator or warehouse having exclusive possession and control of the commodities even though the grain elevator or warehouse is maintained on the commodity owner's premise.
- (g) Warehouse receipts issued by the borrower-owner which is a grain elevator or warehouse company, duly-bonded and licensed and regularly inspected by state or federal authorities, may be considered eligible collateral under this exception only when the receipts are registered with a registrar whose consent is required before the commodities can be withdrawn from the warehouse.
- (4) Loans secured by United States obligations: Loans or extensions of credit secured by bonds, notes, certificates of indebtedness, or treasury bills of the United States or by other such obligations wholly guaranteed as to principal and interest by the United States shall not be subject to any limitation based on capital and surplus.
- (a) This exception applies only to loans or extensions of credit which are fully secured by the current market value of obligations of the United States or guaranteed by the United States.
- (b) If the market value of the collateral declines so that the loan is no longer in conformance with this exception and exceeds the general twenty percent limitation, the loan must be brought into conformance within five business days.
- (c) Securities issued by any department, agency, bureau, board, commission or establishment of the United States, or any corporation wholly owned, directly or indirectly, shall not be considered eligible collateral for purposes of this section, unless such securities shall be direct obligation of or fully guaranteed as to principal and interest by the United States.
- (5) Loans to or guaranteed by a federal agency: Loans or extensions of credit to or secured by unconditional takeout commitments or guarantees of any department, agency, bureau, board, commission, or establishment of the United States or any corporation wholly owned directly or indirectly by the United States shall not be subject to any limitation based on capital and surplus.
- (a) This exception may apply to only that portion of a loan or extension of credit that is covered by a federal guarantee or commitment.
- (b) For purposes of this exception, the commitment or guarantee must be payable in cash or its equivalent within sixty days after demand for payment is made.
- (c) A guarantee or commitment is unconditional if the protection afforded the bank is not substantially diminished or impaired in the case of loss resulting from factors beyond the bank's control. Protection against loss is not materially diminished or impaired by procedural requirements, including default over a specific period of time, a requirement that notification of default be given within a specific period after its occurrence, or a requirement of good faith on the part of the bank.
- (6) Loans secured by segregated deposit accounts: Loans or extensions of credit secured by a segregated deposit account in the lending bank shall not be subject to any limitation based on capital and surplus.

- (a) Deposit accounts which may qualify for this exception include deposits in any form generally recognized as deposits. In the case of the secured loan, the bank must establish internal procedures which will prevent the release of the security.
- (b) The bank must ensure that a security interest has been perfected in the deposit, including the assignment of a specifically identified deposit and any other actions required by state law.
- (c) A deposit which is denominated and payable in a currency other than that of the loan or extension of credit which it secures may be eligible for this exception if it is freely convertible to United States dollars. The deposit must be revalued at least monthly, using appropriate foreign exchange rates, to ensure that the loan or extension of credit remains fully secured. This exception applies to only that portion of the loan or extension of credit that is covered by the United States dollar value of the deposit. If the United States dollar value of the deposit falls to the extent that the loan is in nonconformance with this exception and exceeds the general twenty percent limitation, the loan must be brought into conformance within five business days, except where judicial proceedings, regulatory actions, or other extraordinary occurrences prevent the bank from taking such action. This exception is not authority for state banks to take deposits denominated in foreign currencies.
- (7) Unpaid purchase price of sale of bank property: The unpaid portion of the purchase price of a sale of bank property, if secured by that property, shall not be subject to any limitation based on capital and surplus.
- (a) Any sale of bank property, resulting in an unpaid purchase price exceeding the bank's lending limit must be approved in advance of the sale by the board of directors, including the terms of payment of such unpaid purchase price, and if the purchase is by a director, officer or employee of the bank, shall conform to Regulation O of the Federal Reserve System and RCW 30.12.050.
- (b) The bank must ensure that a security interest has been perfected in the collateral, including execution and recording or filing of documents and any other action required by state law.
 - (8) Discount of installment consumer paper.
- (a) Loans and extensions of credit arising from the discount of negotiable or nonnegotiable installment consumer paper which carries a full recourse endorsement or unconditional guarantee by the person transferring the paper shall be subject under this section to a maximum limitation equal to twenty per centum of capital and surplus.
- (b) If the bank's files or the knowledge of its officers of the financial condition of each maker of such consumer paper is reasonably adequate, and an officer of the bank designated for that purpose by the board of directors of the bank certifies in writing that the bank is relying primarily upon the responsibility of each maker for payment of such loans or extensions of credit and not upon any full or partial recourse endorsement or guarantee by the transferor, the limitations of this section as to the loans or extensions of credit of each such maker shall be the sole applicable loan limitations.

- (c) This exception allows a bank to discount negotiable or nonnegotiable installment consumer paper of one person in an amount equal to twenty per centum of its capital and surplus if the paper carries a full recourse endorsement or unconditional guarantee by the seller transferring such paper. The unconditional guarantee may be in the form of a repurchase agreement or a separate guarantee agreement. A condition reasonably within the power of the bank to perform, such as the repossession of collateral, will not be considered to make conditional an otherwise unconditional agreement.
- (d) For purposes of this subsection, "consumer" means the user of any products, commodities, goods, or services, whether leased or purchased, and does not include any person who purchases products or commodities for the purpose of resale or for fabrication into goods for sale.
- (e) For purposes of this subsection, "consumer paper" includes paper relating to automobiles, mobile homes, residences, office equipment, household items, tuition fees, insurance premium fees, and similar consumer items. Also included is paper covering the lease (where the bank is not the owner or lessor) or purchase of equipment for use in manufacturing, farming, construction, or excavation.
- (f) Under certain circumstances, installment consumer paper which otherwise meets the requirements of this exception will be considered a loan or extension of credit to the maker of the paper rather than the seller of the paper. Specifically, where (i) through the bank's files it has been determined that the financial condition of each maker is reasonably adequate to repay the loan or extension of credit, and (ii) an officer designated by the bank's chairman or chief executive officer pursuant to authorization by the board of directors certifies in writing that the bank is relying primarily upon the maker to repay the loan or extension of credit, the loan or extension of credit is subject only to the lending limits of the maker of the paper. Where paper is purchased in substantial quantities, the records, evaluation, and certification may be in such form as is appropriate for the class and quantity of paper involved.
- (g) If a loan under this section is in default and the dealer or seller of the loan has contractually committed to repurchase the paper, then the loan will be aggregated with the dealer or seller's other outstanding debt for lending limit purposes and will be subject to the twenty per centum limitation.
- (h) If loan payments are received and/or controlled by the dealer or seller of the paper and remitted to the bank, then those loans will be aggregated with the dealer or seller's other outstanding debt for lending limit purposes and will be subject to the twenty per centum limitation.

NEW SECTION

WAC 50-12-300 TRANSITIONAL RULES. (1) Loans or extensions of credit which were in violation of RCW 30.04.111 prior to the relevant effective dates of WAC 50-12-210 through this section will be considered to remain in violation of law until they are paid in full, regardless of whether the loans or extensions of credit

- conform to the rules established in WAC 50-12-210 through this section. Renewals or extensions of such loans or extensions of credit will also be considered violations of law.
- (2) A state bank which has outstanding loans or extensions of credit to a person in violation of RCW 30.04.111 as of the relevant effective dates of WAC 50-12-210 through this section may make additional advances to such person after those dates if the additional advances are permitted under WAC 50-12-210 through this section. The additional advances, however, may not be used directly or indirectly to repay any outstanding illegal loans or extensions of credit.
- (3) Loans or extensions of credit which were in conformance with RCW 30.04.111 prior to the relevant effective dates of WAC 50-12-210 through this section but are not in conformance with the rules established in WAC 50-12-210 through this section will not be considered to be violations of law during the existing contract terms of such loans or extensions of credit. Renewals or extensions of such loans or extensions of credit which are not in conformance with WAC 50-12-210 through this section may be made on or after the effective dates of WAC 50-12-210 through this section, if the nonconformity is caused by the amendments to Title 30 RCW contained in ESSB 4917; however, all loans or extensions of credit made under such renewals or extensions must conform with WAC 50-12-210 through this section no later than April 1, 1988. Loans or extensions of credit which are not in conformance with WAC 50-12-210 through this section for any other reason (i.e., a reduction in the bank's capital) must conform to this section upon renewal or extension.
- (4) If a state bank, prior to the relevant effective dates of WAC 50-12-210 through this section, entered into a legally binding commitment to advance funds on or after those dates, and such commitment was in conformance with RCW 30.04.111, advances under such commitment may be made notwithstanding the fact that such advances are not in conformance with WAC 50-12-210 through this section. The bank must, however, demonstrate that the commitment represents a legal obligation to fund, either by a written agreement or through file documentation. Advances under renewals or extensions of such extension of the commitment is made on or after the relevant effective dates of WAC 50-12-210 through this section.

Purchase of securities convertible into stock at the option of the issuer is prohibited.
- (5) When an investment security is purchased at a price exceeding par or face value, the bank shall:
- (a) Charge off the entire premium at the time of purchase; or
- (b) Provide for a program to amortize the premium paid or that portion of premium remaining after the write—down subject to subsection (2) of this section so that such premium or portion thereof shall be entirely extinguished at or before the maturity of the security.

- (4) The shareholders are protected against personal liability for acts or obligations of the investment company.
- (5) The bank's investment policy, as formally approved by its board of directors, specifically provides for such investments; prior approval of the board of directors is obtained for initial investments in specific investment companies and recorded in the official board minutes; and procedures, standards, and controls for managing such investments are implemented prior to acquirement of these investments.
- (6) If the investment company makes use of futures, forwards, options, repurchase agreements and securities lending arrangements, their use must be consistent with standards adopted for use of such instruments in the bank's portfolio.

- (c) Oversize permits may be issued to transporters, dealers or owners who shall assume full responsibility while operating under a permit. Operators of tow vehicles and others assisting in the transport must function as agents or employees of the permittee.

WSR 87-20-049 PROPOSED RULES DEPARTMENT OF AGRICULTURE

[Filed October 2, 1987]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Department of Agriculture intends to adopt, amend, or repeal rules concerning horticultural district boundaries, chapter 16-458 WAC:

that the agency will at 10:00 a.m., Thursday, November 12, 1987, in the Commodity Inspection Conference Room, 2728 B Westmoor Court S.W., Olympia, WA 98502, conduct a public hearing on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on November 20, 1987.

The authority under which these rules are proposed is chapter 15.17 RCW.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before November 12, 1987.

Dated: October 2, 1987 By: J. Allen Stine Assistant Director

STATEMENT OF PURPOSE

Title: Chapter 16-458 WAC, Horticultural district boundaries.

Description of Purpose: To combine District One with District Three.

Statutory Authority: Chapter 15.17 RCW.

Summary of Rules: This rule combines Districts One and Three. District One is a very small volume horticulture district requiring approximately 1.5 full-time equivalent employees. Consolidation of the two districts will increase efficiencies of inspection service, provide a greater degree of uniformity of inspection procedures, and eliminate duplication of bookkeeping and related records.

Agency Personnel to Contact: James R. Archer, Department of Agriculture, Commodity Inspection Division, 406 General Administration Building, AX-41, Olympia, Washington 98504, phone (206) 753-5054.

These rules are proposed by the Department of Agriculture.

Agency Comments: From a practical standpoint, management/supervision of District One has been provided for the past three years by the District Three office located in Moses Lake, Washington. Products under inspection are quite similar between the two districts. The small volume of production and limited number of personnel required in District One does not warrant continuation of a separate district. Action on this matter has been deferred until such time that a fee increase became necessary. District One has now depleted cash reserves making an increase in fees necessary in the immediate future. District One has not had a fee increase since January 1979, although fees in the other districts have all been increased as follows: District Two and Four in January 1985, and District Three in March 1986. The

primary purpose of combining the two districts include efficiencies and elimination of duplication of certain efforts by management. A fee increase will be necessary in District One even if consolidation does not occur. Consolidation of District One with District Three will effect a fee increase to District One by assumption of the existing District Three schedule.

These rules are not necessary as a result of federal law, or federal or state court action.

Small Business Impact Statement: None.

AMENDATORY SECTION (Amending Order 1471, filed 7/2/76)

WAC 16-458-080 DISTRICT THREE. All counties located west of the Cascade Mountains, Adams, Asotin, Columbia, Ferry, Franklin, Garfield, Grant, Lincoln, Pend Oreille, Spokane, Stevens, Walla Walla and Whitman counties, and that portion of Benton County lying south and east of the Sellards Road, from its junction with Yakima County on the west thence east to the center line of Range 27E, thence north to the Columbia River; this excludes the Benton City, Kiona and Prosser areas.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 16-458-070 DISTRICT ONE.

WSR 87-20-053 EMERGENCY RULES DEPARTMENT OF NATURAL RESOURCES

[Order 525—Filed October 2, 1987]

- I, Brian J. Boyle, Commissioner of Public Lands, do promulgate and adopt at Olympia, Washington, the annexed rules relating to the extension of "closed to entry areas," regions of extra fire hazard.
- I, Brian J. Boyle, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary

to public interest. A statement of the facts constituting the emergency is prolonged drying has necessitated to [the] extension of rules which establish "closed to entry areas." These rules preclude recreational access to areas of heavy slash concentrations. The continued high fire danger leaves these areas prone to wildfire and the restrictions are necessary to prevent a wildfire from occurring.

These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

This rule is promulgated pursuant to RCW 76.04.015 and 76.04.305 and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules. APPROVED AND ADOPTED October 1, 1987.

The board of trustees of Eastern Washington University has the authority and obligation to adopt regulations for the governance of the university for the purpose of providing educational opportunities to its students, transmitting and advancing knowledge and ((to)) of providing a wide range of services to both students and the general public. To safeguard the rights, opportunities, and welfare of students, faculty, staff and guests of the university community, and to assure protection of the interests of the university as it seeks to carry out its mission on behalf of the citizens of the state of Washington, certain minimum standards of conduct become necessary.

AMENDATORY SECTION (Amending Order 1-22-81, filed 2/25/81)

WAC 172-120-080 AUTHORITY OF UNIVER-SITY DISCIPLINARY OFFICER. When the university disciplinary officer receives a complaint against a student for a violation of the code, the disciplinary officer will explain to the complainant ((their)) his/her rights under the student conduct code and possible avenues of action which the complainant has against the student. including reference to remedies under civil law as well as possible remedies under the student code. If the university disciplinary officer decides to initiate a disciplinary proceeding against the student the disciplinary officer will then call the student charged for an initial conference. At this time, the university disciplinary officer will provide the accused student with a written list of the charges, and will explain the student's rights under the student code and what possible ramifications may occur under civil law, if any. The disciplinary officer will further explain the disciplinary procedures and possible penalties under the student code and advise the student that ((the student)) he/she must, within twenty-four hours after receipt of this explanation, decide whether ((the student)) he/she wishes to have ((the)) his/her case heard by the university disciplinary officer, or by the university disciplinary committee, and sign a statement declaring the same. The committee must receive at least seventy-two hours notice as to the time and place

- of the hearing. After considering the evidence against a student so charged, the university disciplinary officer may take any of the following actions:
 - (1) Terminate the complaint, exonerating the student.
- (2) Dismiss the charge after whatever counseling and advice is deemed appropriate.
- (3) Refer the student to ((specialists, as in the case of emotional disturbances)) the mental health review board when it is reasonably determined from the available evidence that such referral is appropriate.
- (4) Impose any number of sanctions from WAC 172-120-050(1) (minor disciplinary sanction((s))) ((contained herein)).
- (5) Refer the case to the university disciplinary committee in the event the university disciplinary officer deems major disciplinary sanction may be warranted or if the student requests that ((the)) his/her case be heard by the committee. If the student requests that the case be heard by the university disciplinary committee rather than the university disciplinary officer, the committee may take any of the sanctions listed in subsections (1), (2), (3), and (4) ((above)) of this section, except that the committee may impose a major disciplinary sanction as defined in ((subsection (2) of)) WAC 172-120-050 ((herein)) (2).

AMENDATORY SECTION (Amending Order 1-22-81, filed 2/25/81)

WAC 172-120-090 CONSOLIDATION OF CASES PERMISSIBLE. In the event that one or more students are charged with the same misconduct arising from the same occurrence, the disciplinary committee or university disciplinary officer shall be authorized to consolidate the hearings as practical((: PROVIDED, That such)); however, consolidation does not prejudice the rights of any students.

AMENDATORY SECTION (Amending Order 1-22-81, filed 2/25/81)

WAC 172-120-100 HEARINGS PROCEDURE. (1) Hearings before the university disciplinary committee will generally be open hearings, but upon request by either the complaining witness or the student charged, the hearing shall be closed.

- (a) In all cases in which an open hearing occurs, the chair of the committee shall have the discretion to reasonably limit the amount of attendees at such hearing. If at any time during the conduct of a hearing, invited guests or attendees are disruptive of the proceedings, the chair of the committee may exclude such persons from the hearing room. In those cases in which the chair decides that because of disruption the hearing cannot be conducted fairly in an open session, the chair may direct that the hearing be recessed and that the remainder be conducted in closed session.
- (b) Any students attending a disciplinary committee hearing as an invited guest((s)) or as attendee((s)) who continues to disrupt the proceedings after the chair of the committee has asked them to cease and desist thereof, shall be subject to disciplinary action.

- (2) A written record or a tape recording of the testimony before the university disciplinary committee shall be kept. It may be reviewed by the student at any time prior to the final disposition of the case. A record of all proceedings will be kept and filed with the university disciplinary officer.
- (3) Students may have an adviser of ((their)) his/her choice to present or assist in the presentation of ((their)) his/her case, subject to the limitations of ((subsection (3)))(b) of this ((section)) subsection. Students must render three days' notice prior to the hearing of the prospective representation if ((they)) he/she intends to be represented by a duly licensed attorney. In the event the student((s)) chooses a duly licensed attorney to represent ((them)) him/her in proceedings before the disciplinary committee, an assistant attorney general for the state of Washington shall represent the university therein.
- (a) In those instances in which both sides are represented by a duly licensed attorney, the assistant attorney general of the state of Washington representing the university shall present the case against the student to the disciplinary committee or the university disciplinary officer for appropriate findings and action.
- (b) In the instance where duly licensed attorneys are not representing either the university or the accused student, the university shall be represented by the university disciplinary officer, or his/her designee((: PROVIDED, HOWEVER, That)); however, the representative of the university shall be acceptable to the complaining witness or witnesses((: PROVIDED FURTHER, That)); however, no one may represent the university or the student charged unless ((they are)) he/she is a member of the student body, faculty, classified staff, or administrative staff of Eastern Washington University.
- (4) Only those matters presented at the hearing in the presence of the accused student, except where the student fails to attend after receipt of proper notice that a hearing regarding the university's allegation that he/she violated the student code is being held at a certain time and place, will be considered in determining whether the university disciplinary committee has sufficient cause to believe that the accused student is guilty of violating any of the written list of charges presented ((them)) him/her pursuant to WAC 172-120-080 ((of this code)).
- (a) In determining whether sufficient cause, as stated in the foregoing paragraph, does exist, the university disciplinary officer or in the instance of a hearing, the university disciplinary committee, shall decide whether a preponderance of the evidence indicates that the student charged did violate the student code by engaging in the conduct for which ((they were)) he/she was charged pursuant to WAC 172-120-080 ((of this code)).
- (b) For the purposes of this code, the phrase, "preponderance of the evidence," shall mean that it is more likely that the student charged did violate the student code by engaging in the conduct for which ((they are)) he/she is charged than that ((they)) he/she did not.
- (c) The chair of the university disciplinary committee shall, in the course of presiding at the disciplinary hearing, give effect to the rules of privilege recognized by law and may exclude incompetent, irrelevant, immaterial, and unduly repetitious evidence.

AMENDATORY SECTION (Amending Order 1-22-81, filed 2/25/81)

WAC 172-120-110 DISCIPLINARY COMMITTEE—DELIBERATIONS AND SANCTIONS. (1) The university disciplinary committee will meet in closed session and decide by majority vote whether the preponderance of the evidence indicates that the student has or has not violated the rules ((they are)) he/she is charged with having violated. If the decision is that the student did engage in an act of misconduct in violation of the rules with which ((they are)) he/she is charged with having violated, the committee will by majority vote determine what sanction from WAC 172-120-050 ((herein)) it will recommend that the president impose upon the student. This recommendation to the president must be accomplished within five days of the time when the proceedings are terminated.

(2) In the course of the committee's decision as to what sanction it shall recommend be imposed by the president, it may consider any evidence of past misconduct that the chair of the committee deems relevant; such evidence may be presented by the university disciplinary officer or ((their)) his/her designee.

(3) No recommendation for the imposition of sanctions may be based solely upon the failure of the accused student to answer the charges or appear at the hearing, but must be based upon the evidence considered prior to the committee's decision or on the evidence of past misconduct deemed relevant by the chair of the university disciplinary committee.

AMENDATORY SECTION (Amending Order 1-22-81, filed 2/25/81)

WAC 172-120-120 APPEALS. (1) Any student feeling aggrieved by the imposition of minor disciplinary sanctions by the university disciplinary officer or by a student court shall have a right of appeal to the disciplinary committee, provided a written notice of appeal is received by the committee within five days after notice of disciplinary action is given. The written notice of appeal shall set forth:

(a) The student's name;

(b) The nature of the disciplinary action imposed; and

(c) The reasons why the recommendation regarding disciplinary action should be reversed, set aside or modified. The committee may request a written report of the case from the disciplinary officer or student court before making its decision. The committee shall also have the right to request additional written information or explanation from any of the parties to the proceeding before rendering its decision. In making its decision, the committee shall only consider the written record before it, the student's notice of appeal, the written report of the disciplinary officer or student court and such other information and explanation it has requested from the parties to the proceeding. There shall be no further appeal from any action of the disciplinary officer. The committee is empowered to affirm, reverse, remand, or modify (only to a less severe sanction) the recommendation regarding disciplinary action of the university disciplinary officer or a student court.

- (2) Appeals to the president:
- (a) Any student aggrieved by the disciplinary committee's recommendation as to what disciplinary action the president should take (as distinguished from appellate consideration by the committee), shall have a right of appeal to the president, or the president's designee, within five days after notice of the recommendation of disciplinary action is given.
- (b) If a complaining witness feels aggrieved by the decision of the university disciplinary officer or by the university disciplinary committee's recommendation to the president, ((they)) he/she may petition the president to remand the charges back to the disciplinary officer or the university disciplinary committee for a rehearing of the matter as charged.
- (3) The written notice of appeal by an aggrieved student or a petition by an aggrieved complaining witness shall set forth:
- (a) The student's name or the complaining witness's name;
- (b) The nature of the disciplinary action requested or imposed; and
- (c) Reasons why the disciplinary sanction recommended should be reversed, set aside, or modified, or in the case of a petitioning complaining witness, the reasons why the disciplinary matter should be reheard by the university disciplinary officer or the university disciplinary committee.
- (4) The president may request a written report of the case from the disciplinary committee before making a decision. The president shall also have the right to request additional information or explanation from any of the parties to the proceeding before rendering a decision. In making a decision, the president shall only consider the written record, the student's notice of appeal, the petition of a complaining witness if such is filed, the written record of the disciplinary committee, and such other information and an explanation requested from the parties to the proceeding. In the instance in which the president has received a finding that the university student code has been violated, the president may, in considering what disciplinary sanction should be imposed, affirm, reverse, remand, or modify (only to a less severe sanction) the recommendation of the university disciplinary committee.

AMENDATORY SECTION (Amending Order 1-22-81, filed 2/25/81)

WAC 172-120-130 INTERIM SUSPENSION PERMITTED. Disciplinary actions of the university will be implemented by the president of the university, except as such implementation may be delegated by the president or the board of trustees. Ordinarily, the disciplinary authority of the university will be invoked only after completion of the procedures established for the review of disciplinary cases and after the employee or student, if ((they)) he/she so ((wish)) wishes, ((have)) has availed ((themselves)) himself/herself of the appeal procedures. However, ((in emergency situations,)) if the safety of one or more individuals is imperiled, property is endangered, or the university's ability to function is in question, the president or an authorized representative

may summarily suspend for stated cause an employee or the enrollment of any student. In all such cases, the individual is entitled to a hearing, upon written request, before the appropriate group or official as specified under discipline procedures as soon as such a hearing can be held, but not to exceed ten days after the date of summary suspension. During the period of interim suspension, the individual shall not enter or remain on the campus or other property owned or controlled by the university.

- (ii) The nature and approximate date of the activity in which ((they are)) he/she is suspected of having engaged,

- (f) A student shall not be subjected to university judicial action more than once for the same violation of a regulation.

WSR 87-20-061 PROPOSED RULES

DEPARTMENT OF GENERAL ADMINISTRATION (Division of Savings and Loan Associations)

[Filed October 5, 1987]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Division of Savings and Loan Associations, Department of General Administration, intends to adopt, amend, or repeal rules concerning application for de novo branches in Washington state by foreign savings and loan associations;

that the agency will at 2:00 p.m., Thursday, November 12, 1987, in the Office of the Supervisor, Room 217-C, General Administration Building, Olympia, conduct a public hearing on the proposed rules.

The adoption, amendment, or repeal of the rules will take place immediately following the hearing.

The authority under which these rules are proposed is RCW 33.04.025, which grants rule-making authority to the supervisor in accordance with chapter 34.04 RCW.

The specific statute these rules are intended to implement is RCW 33.32.030 which gives the supervisor general regulatory authority over foreign associations doing business in this state.

Dated: October 5, 1987 By: Betty Reed Supervisor

STATEMENT OF PURPOSE

Title: WAC 419-60-010 through 419-60-030, Foreign association branch application procedures.

This statement is filed pursuant to RCW 34.04.045.

Recent changes in various state and federal laws, regulations and policies now permit savings and loan associations to establish branches across state lines. In response to specific intended actions by foreign associations, the supervisor adopted emergency rules setting forth application procedures and fees under the authority of RCW 33.32.030, which outlines the requirement for the supervisor to regulate the business activities of foreign associations operating in this state. This statement of purpose amplifies the notice of intent to adopt these rules on a permanent basis.

The rules address the procedures for providing such information as may be necessary for the supervisor to determine that the proposed activity is in the public interest and has a reasonable chance of success. They also provide for fees sufficient to cover the cost of investigation and evaluation of the information provided.

RCW 33.32.060 further supports the establishment of these rules by requiring that the supervisor ensure that no foreign association be permitted to do business in this state on more favorable terms and conditions than Washington chartered associations are allowed in such foreign association's state of incorporation. Many states have established similar foreign branch application procedures which would impact Washington associations, so these rules are required to establish the reciprocity envisioned by the statute.

These regulations are drafted and proposed by Betty Reed, Supervisor, Division of Savings and Loan Associations, Room 217-C, General Administration Building, Olympia, Washington 98504, phone (206) 753-5597.

The supervisor will be responsible for the enforcement of this regulation.

Small Business Economic Impact Statement: These rules will not have an adverse economic impact on more than twenty percent of all financial institutions or more than ten percent of state-chartered savings and loans. Accordingly, an economic impact statement is not required under RCW 19.85.030.

NEW SECTION

WAC 419-60-010 APPLICATION PROCEDURES. RCW 33-.32.030 provides for regulatory authority by the supervisor over the activities of foreign associations within the state of Washington, and requires that such associations conduct their business in accordance with the appropriate statutes and under the requirements set forth by the supervisor in various rules. In order to conduct the business of a savings and loan in Washington, a foreign association must formally apply for the approval of the supervisor. Procedures for application are as follows:

(1) The application must be filed with the supervisor at the offices of the Division of Savings and Loan, Room 217C, General Administration Building, Olympia, Washington 98504.

(2) The application shall be filed in duplicate and shall be accompanied by a filing fee of five thousand dollars. In the event the actual costs of investigating the application exceed this amount, such difference between the fee and the actual costs shall be paid by the applicant. For the purposes of this section, actual costs shall include but not be limited to travel and per diem expense paid to division personnel in connection with the investigation.

NEW SECTION

WAC 419-60-020 INFORMATION TO BE INCLUDED IN THE APPLICATION. An application shall include at least the following information:

(1) Name, address, and telephone number of the applicant.

(2) Name, address, and telephone number of the person to be contacted concerning the application.

(3) A summary of the applicant's history, which should include as a minimum the date and place of incorporation, the date and nature of any mergers or acquisitions, and certified current copies of the applicant's articles of incorporation and bylaws.

- (4) A description of the applicant's business and corporate structure, including a listing of all branches or similar offices, and each majority owned subsidiary, and the nature and extent of the business activities of each.
- (5) A business plan describing the applicant's proposed business activities in this state.
- (6) A copy of the independent auditor's report for the applicant's most recent fiscal year and comparative financial statements for the prior fiscal year.
- (7) The name, address, professional experience, and financial statement of the chief executive officer and principal operating officers.
- (8) The name, address, and principal occupation of each director of applicant, and completed biographical and financial statements on each.
- (9) A copy of the last two examination reports prepared by the applicable Federal Home Loan Bank, the last two state examination reports, any correspondence from the relevant regulator to the board of directors discussing each report, and the board's responses thereto.
- (10) A statement as to the presence or absence of any supervisory agreement or regulatory order that may be in effect or may have been in effect in the last five years, and, if so, a copy of each such order or agreement.
- (11) An opinion from the applicant's state regulatory agency which describes the conditions under which Washington associations may conduct business in such state.

- (12) A statement of total shares outstanding and total number of stockholders if the applicant is a stock association. Additionally, provide a breakdown of stock ownership by officers and directors and any other entities owning five percent or more of the association's stock.
 - (13) A copy of the association's bond and its riders/attachments.
- (14) Any additional information that may be required by the supervisor or deemed appropriate by the applicant.

NEW SECTION

Deputy Director

STATEMENT OF PURPOSE

Title: Minimum standards for construction and maintenance of water wells, chapter 173-160 WAC; and Rules and regulations governing the regulation and licensing of water well contractors and operators, chapter 173-162 WAC.

Description of Purpose: Changes to chapter 173–160 WAC clarify the definition of a well, update well construction methods, add a prior construction notification, refine well abandonment methods, and add a new section for construction of wells other than water supply wells; and repeals parts of chapters 173–160 and 173–162 WAC. Changes to chapter 173–162 WAC are necessary to implement the changes to chapter 18.104 RCW (Water Well Construction Act of 1971). The changes relate to licensing requirements for well drillers.

Statutory Authority: Chapter 18.104 RCW.

Summary of Rule: Proposed to clarify definitions relating to well construction, establish updated well construction methods, add a prior construction notification, refine well abandonment methods, and establish a new section for the construction of wells other than water supply wells. Establishes additional requirements for licensing of well drillers.

Summary Statement: These rules are minimum standards for construction and maintenance of water wells, chapter 173–160 WAC; and rules and regulations governing the regulation and licensing of water well contractors and operators, chapter 173–162 WAC.

Background: The Department of Ecology (WDOE) administers the Water Well Construction Act (chapter 18.104 RCW) and has the power to establish rules, regulations, standards for licensing well drillers and methods for well construction. There continues to be substandard well construction and more stringent requirements are needed to protect the ground water resources and consumers.

In 1985, a Water Well Advisory Committee was formed to review the Water Well Construction Act. The advisory committee submitted a report to the Senate Agriculture Committee and recommended several legislative changes in the act. The advisory committee addressed problems with the lack of training required for well drillers, the lack of accountability of well drillers and the difficult procedure for regulating the drilling industry. They recommend the WDOE review and revise, as appropriate, the regulations governing well construction and well drillers licensing.

Summary: Changes to these regulations are necessary to clarify and expand the definition of a well and related terms used in well construction to add a prior construction notification procedure, to add a new section regulating the construction of wells other than water supply wells, and to establish additional requirements for obtaining a well drillers license, as required by state law (chapter 18.104 RCW - Water Well Construction Act of 1971).

The proposed regulation changes would establish state of the art well construction standards and more stringent requirements to obtain a well drillers license to protect the ground water resources and consumers of well driller services.

Reasons Supporting Proposed Action: There is a need to clarify the definition of a well in the present rule, establish well construction methods for monitoring wells, and establish more stringent requirements for obtaining a well drillers license, to protect the ground water resources and consumers of well driller services.

Agency Personnel Responsible for Drafting: Bill Miller, PV-11, Olympia, WA 98504-8711, (206) 459-6045, and Bert Bowen, PV-11, Olympia, WA 98504-8711, (206) 459-6077; Implementation: Hedia Adelsman, PV-11, Olympia, WA 98504-8711, (206) 459-6056; and Enforcement: Herman Huggins, 4350 150th Avenue N.E., Redmond, WA 98502-5301, (206) 867-7000, Gary Hanson, 7272 Clearwater Lane, LU-11, Olympia, WA 98504-6811, (206) 753-2977, Ted Olson, North 4601 Monroe, Suite 100, Spokane, WA 99205-1295, (509) 456-2926, and Doug Clausing, 3601 West Washington, Yakima, WA 98903-1164, (509) 576-2800.

Person or Organization Proposing Rule, and Whether Public, Private, or Governmental: Department of Ecology, state government.

Agency Comments or Recommendations Regarding Statutory Language, Implementation, Enforcement, Fiscal Matters: None.

Whether Rule is Necessary as a Result of Federal Law or Federal or State Court Action: [No information supplied by agency.]

Small Business Economic Impact Statement: Not applicable.

Sources of contamination include, but are not limited to, the following: Septic systems, lagoons, landfills, hazardous waste sites, salt water intrusion areas, chemical storage areas, and near pipelines.
- (2) When strict compliance with these regulations ((appears to be)) is impractical, the well contractor or driller shall make application to the department for approval of comparable alternative specifications prior to the work being done.

NEW SECTION

WAC 173-160-055 WELL CONSTRUCTION NOTIFICA-TION (START CARD). All well contractors shall notify the department of their intent to construct, reconstruct, or abandon a well at least seventy-two hours before starting work.

Notification shall be submitted on forms provided by the department and shall contain the well owners name, well location, proposed use, approximate start date, driller's name and license number, and drilling company's name. In an emergency, public health emergency, or exceptional instances, the department will allow verbal notification to the appropriate regional office, with a start card follow-up.

NEW SECTION

WAC 173-160-065 DESIGN AND CONSTRUCTION. Every well shall be planned and constructed so that it is:

- (1) Adapted to the geologic and ground water conditions existing at the site of the well to insure full utilization of every natural protection afforded thereby.
- (2) Designed to facilitate such supplementary construction as may be required to provide a sufficient and safe water supply where obtainable and to conserve ground water.
- (3) Capable of yielding, the quantity of water necessary to satisfy the requirements which the user has stated are needed and for which well water is intended to be used.

NEW SECTION

WAC 173-160-075 DESIGN AND CONSTRUCTION-SEALING OF CASING—GENERAL. In constructing, developing, redeveloping or conditioning a well, care shall be taken to preserve the natural barriers to ground water movement between aquifers and to seal aquifers or strata penetrated during drilling operations which might impair water quality or result in cascading water. All sealing should be permanent and shall prevent movement of surface, ground, or tidal waters into the annular space. Sealing shall prevent the upward movement of artesian waters within the annular space around the well casing, to prevent the contamination or wasting of ground water, and tidal effects. Sealing shall prevent the movement of ground water either upward or downward from zones that were cased off because of poor quality. When cement grout is used in sealing, it shall be set in place seventy-two hours before additional drilling takes place, unless special additives are mixed with the grout that will cause it to set in a shorter period of time. All grouting shall be performed by adding the mixture from the bottom of the annular space to be grouted toward the surface in one continuous operation. The annular space to be grouted shall be a minimum four inches larger than the permanent casing.

When casing diameter is reduced, a minimum of eight feet of casing overlap is required and the bottom of the annular space between the casings shall be sealed with a watertight packer; the remainder of the annular space must be pressure grouted with bentonite or neat cement.

WAC 173-160-085 CAPPING. Temporary capping of a well shall be accomplished such that no contamination can enter the well. Capping shall be affixed by watertight tack welds or equal seal to prevent unauthorized entrance.

NEW SECTION

WAC 173-160-095 RELATIONSHIP TO OTHER AUTHORITIES. Nothing in these regulations shall be construed to waive any legal requirements of other state agencies or local governmental entities relating to well construction nor shall it preclude the adoption of more stringent minimum well construction standards by local government.

NEW SECTION

WAC 173-160-105 COMPARABLE CONSTRUCTION STANDARDS. Nothing in these regulations shall be construed to limit the department's authority to approve comparable alternative specifications for well construction as technology in the industry develops and/or new and comparable methods of construction become known to the department.

PART TWO - WATER SUPPLY WELLS

NEW SECTION

WAC 173-160-205 LOCATION OF WELL SITE AND ACCESS REQUIREMENTS. The proposed water supply well should be located on high ground consistent with the general terrain. It shall be protected from a one hundred year flood and from any surface or subsurface drainage capable of impairing the quality of the ground water supply. The well shall be located away from possible sources of contamination. Well design shall consider porosity and permeability of the soil, adjacent land uses, local ground water conditions and end use of the well. When a well is located in an area of known or suspected contamination, the well casing shall be impervious to the contaminants and shall not interconnect aquifers.

When a well is constructed adjacent to a building, it shall be located where the centerline of the well extended vertically will clear any projection from the building by at least five feet.

After construction, the water well contractor or operator should strongly emphasize, to the well owner, the importance of retaining a good accessibility to the well to permit future inspection and maintenance.

- (1) Public water supply wells. Before construction begins, site approval must be obtained from the department of social and health services, or the local health authority and the requirements of the state board of health regulation regarding public water supplies (chapter 248-54 WAC) shall apply. This regulation includes requirements for zones of protection, location of the well, accessibility features, and certain construction requirements.
- (2) Individual and multiple service domestic, irrigation, industrial and other wells. Wells shall not be located within certain minimum distances of potential sources of contamination. These minimum distances shall comply with local health regulations as appropriate. Wells shall be located at least one hundred feet from a sewer, septic tank, septic drain field, privy, sewage or manure lagoon, pipeline, or known, or suspected source of contamination. Wells shall not be located within one thousand feet of solid waste landfills.

NEW SECTION

WAC 173-160-215 DESIGN AND CONSTRUCTION—WELL COMPLETION—GENERAL. The well may be completed with screens, perforated liners or pipe, or open bottom; these shall be of sufficient strength to withstand the forces to which they are subjected during and after construction. It is the well drillers or designers responsibility to advise the owner or his representative of the most appropriate method of completion. Wells shall be completed in a manner which prevents the production of inordinate amounts of sand or turbid water.

- (1) Standard open bottom completion. Open bottom completion is appropriate only where the withdrawn waters are essentially free of sand, silt and turbidity.
- (2) Perforated pipe completion. Perforated pipe completion is suitable only for a coarse-grained, permeable aquifer where the withdrawn waters are free of excessive sand, silt or turbidity.

Perforations above the static water level are permitted only on resource protection wells. Wells may be completed with perforations as follows:

- (a) In-place perforations with Star, Mills knife, or similar type perforators.
- (b) Perforated pipe liners, either torch—cut, mill—slotted or punched. Such liners may be of steel, plastic or other suitable corrosion—resistant material, but if other than steel, a full evaluation of the structural stability of the liner must be made prior to its placement. They may be used in a natural development or gravel—packed type construction. The top of the liner shall be fitted with neoprene or lead packers or grout sealed to the well casing. The bottom of the liner shall be fitted with a suitable closure. The use of perforated casing for working casing as the hole is being drilled is prohibited, except in those cases where the contractor can, through personal experience in the particular area of drilling, attest to the sufficiency of the preperforated casing in all respects for the specific well being constructed.
- (3) Well screens. Well screens (and well points) shall be constructed of one type of corrosion-resistant material. A neoprene lead packer or grout seal shall be fitted to the top of the well screen assembly. The bottom of the well screen shall be plugged or capped.
- (4) Alignment. A completed well must be so constructed that the drill hole and/or installed casing does not deviate from an alignment that would allow a twenty foot dummy section of pipe of no more than one diameter size smaller than the casing liner or drilled hole to be inserted to the bottom of the well without binding. Minimum specifications for casing sizes for various ranges in well yield or pumping rate are shown under WAC 173-160-235.

NEW SECTION

WAC 173-160-225 DESIGN AND CONSTRUCTION—CAS-ING. Proper casing shall be installed in all water supply wells. The casing shall withstand the normal forces which act upon it during and after installation. It shall be resistant to the corrosive effects of enclosing rocks, earth and water. Unless prior approval is obtained from the department, materials for well casings shall be as specified hereunder:

(1) Minimum specifications for steel casing and pipe for driven wells are contained in Table 1:

(1) Puddling clay shall consist of any stable, fine-grained, impervious material with at least fifty percent bentonite, by volume, with the maximum size of the remaining portion not exceeding that of coarse sand (.5 mm - .1 mm), which is capable of providing a water tight seal between the casing and formation throughout the depth required to protect against objectionable matter and which is reasonably free of shrinkage.

(2) Cement grout (neat cement) shall consist of either portland cement or quick setting cement mixed with not more than six gallons of water per sack of cement. Up to five percent bentonite clay, by weight, may be added to improve flow qualities and compensate for shrinkage.

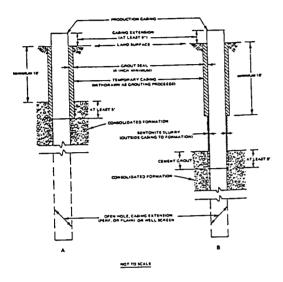

Figure 1. SEALING OF CONSOLIDATED FORMATIONS

NEW SECTION

WAC 173-160-275 SEALING OF UNCONSOLIDATED FORMATIONS WITH CLAY BEDS. In drilled wells that penetrate an aquifer overlain by clay or other unconsolidated deposits such as sand and gravel in which significant (at least six feet thick) interbeds of clay are present, the well casing may be terminated in such clay strata, provided that the casing be sealed in substantially the same manner as is required in the case of consolidated formations (see WAC 173-160-255 and Figure 2C at the end of this chapter).

NEW SECTION

WAC 173-160-285 SPECIAL SEALING STANDARDS FOR ARTESIAN WELLS. When artesian water is encountered in the well, an unperforated well casing shall extend into the confining stratum overlying the artesian zone. The casing shall be sealed into the confining stratum to prevent surface and subsurface leakage from the artesian zone. If the well flows at land surface, it shall be equipped with a control valve so flow can be completely stopped. The well shall be completed with seals, packers or grout that eliminates leakage around the well casing. The driller shall not move the drilling rig from the well site until leakage is completely stopped unless authority for temporary removal is granted by the department, or when loss of life or property is imminent.

NEW SECTION

WAC 173-160-295 ARTIFICIAL GRAVEL-PACKED WELLS—GENERAL. In gravel-packed wells, the gravel mixture shall be placed around the screen so that bridging or size separation does not occur. The gravel pack shall be clean, chemically stable, and uniform. All gravel and water used shall be disinfected in at least fifty parts per million (ppm) chlorine with a contact time of at least thirty minutes. Rinse water containing chlorine is a pollutant. Chlorine in the

rinse water shall be allowed to dissipate and discharged in a safe manner consistent with the intent of the Water Pollution Control Act, chapter 90.48 RCW.

NEW SECTION

WAC 173-160-305 SEALING OF ARTIFICIAL GRAVEL-PACKED WELLS. (1) Permanent surface casing not installed. An upper drill hole having a diameter of at least four inches greater than the outside diameter of the production casing shall be drilled to extend from land surface into a clay or other formation of low permeability overlying the water-bearing zone. A temporary surface casing must be installed to this depth to maintain the annular space. The annular space to this depth shall be filled with cement grout or puddling clay. If the clay or other impermeable formation is at or near land surface, the upper drill hole and unperforated production casing shall extend to a minimum depth of eighteen feet below land surface, provided that the casing does not pass through the impermeable zone. A watertight packer shall be installed in the annular space between the gravel pack and cement grout seal. A gravel fill pipe may be installed for injecting gravel prior to sealing the top of the gravel pack. Special care shall be taken to insure the seal is watertight around the injection pipe. The injection pipe shall be capped with a watertight seal or plug. See Figure 3A.

(2) Permanent surface casing installed. When permanent surface casing is installed, the well bore shall have a diameter at least four inches greater than the surface casing for the introduction of sealing materials. A welded steel plate or watertight seal shall be installed at the top of the gravel pack between the permanent surface and production casing. Sealing procedures and installation of gravel fill pipes are substantially the same as in subsection (1) of this section. A temporary casing must be used to maintain the oversized drill hole. The annular space to be sealed under conditions of subsections (1) and (2) of this section shall be kept full with cement grout or puddling clay as the temporary casing is withdrawn. See Figure 3B.

(3) If a clay layer or other formation of low permeability is not encountered before reaching the top of the water-bearing zone, the upper drill hole and unperforated production casing shall extend to a minimum depth of eighteen feet below land surface. Sealing procedures, installation of gravel fill pipes and temporary casing are substantially the same as in subsections (1) and (2) of this section.

NEW SECTION

WAC 173-160-315 SEALING OF DUG WELLS. The surface curbing of all dug wells shall be constructed to effectively seal the annular space between the undisturbed native material of the upper well hole and the concrete tile, steel pipe or liner to a depth of at least eighteen feet or within three feet of the bottom in wells that are less than twenty-one feet in depth.

(1) In all dug wells, other than a buried slab type, concrete at least six inches thick shall be used as sealing material. If wooden cribbing is used as a retaining wall to provide for a concrete surface curbing, the cribbing shall be removed from the hole after the concrete has set.

(2) In buried slab type well construction, a steel casing shall extend at least six inches beyond the slab into the lower well hole; the buried slab shall be sealed with cement grout and the remaining annular space to land surface shall be filled with bentonite or puddled clay. See Figure 4.

WAC 173-160-325 SPECIAL STANDARDS FOR DRIVEN OR JETTED WELLS. In all driven point wells, the casing shall extend at least five feet below the anticipated pumping level. An upper hole at least four inches greater in diameter than the permanent casing shall extend a minimum of six feet below land surface. The annular space between the upper oversized drill hole and the permanent casing shall be kept at least one-half full with bentonite slurry throughout all driving of the pipe. The remaining annular space to land surface shall be filled with cement grout or puddling clay. See Figure 5.

NEW SECTION

WAC 173-160-335 UPPER TERMINAL OF WELL. The watertight casing or curbing of any well shall extend at least six inches above the ground surface. In the case of public water supplies where the site is not subject to flooding, the pumphouse floor must be at least one foot above land surface, with a minimum of six inches of casing projecting above the floor; where the site is subject to flooding, the pumphouse floor must be at least two feet above the estimated water level of a one hundred-year frequency flood. Any vent opening, observation ports or air-line equipment shall extend from the upper end of the well by watertight piping to a point at least one foot above the pumphouse floor or cover installed above ground surface. The terminals of these facilities shall be shielded or sealed to prevent entrance of foreign matter or pollutants. A pitless adaptor, or similar device is permitted on domestic wells if made with approved fittings or accepted welding procedures. The connection must be above static water level. The pump location must not be subject to flooding.

NEW SECTION

WAC 173-160-345 TESTING OF WELL. (1) Well authorized by appropriation permit. Before being put to use, each well shall be pump tested for yield and drawdown and reports submitted as required in chapter 90.44 RCW. The well shall be test pumped at rates greater than are expected from the well during its normal usage. For public water supply wells, the test pump shall be operated continuously for a minimum of four hours. The yield and drawdown shall be determined following at least two hours of stabilized water level observation. Periodic water level observation should be made during drawdown and subsequent recovery periods. Periods of observation shall be more frequent during the onset of drawdown and may decrease in frequency as drawdown or recovery proceeds toward stabilization. A bailer test is not an acceptable substitute for testing wells under permit.

- (2) Wells not requiring appropriation permit. Testing of a well not requiring an appropriation permit shall be conducted for a period of at least one hour either by bailer or with a pump.
- (3) Test data must be reported to the department in the water well report.

NEW SECTION

WAC 173-160-355 TESTING OF WELL—ACCESS PORT OR PRESSURE GAGE. All wells shall be equipped with an access port that allows for the measurement of the depth to water surface or a pressure gage that indicates the shut-in pressure of a flowing artesian well. See Figure 6. The access ports and pressure gages or other openings in the cover shall be sealed or capped to prevent entrance of surface water or foreign material into the well.

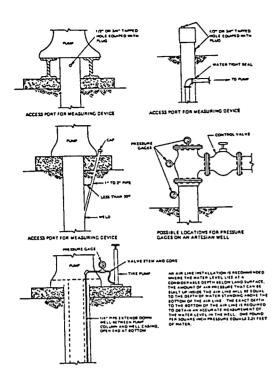

Figure 6. SUGGESTED METHODS FOR INSTALLING PRESSURE GAGES AND AIRLINES FOR MEASURING WATER LEVELS IN WELLS

WAC 173-160-365 DISINFECTION. (1) All tools and drilling equipment shall be thoroughly disinfected with a chlorine compound prior to beginning well construction.

(2) Every new or reconditioned well, after completion of construction or repair, and before being placed in service, shall be cleared of all foreign materials.

(3) The well casing shall be swabbed and cleaned to remove oil, grease or joint dope.

(4) All pumping equipment, sand or gravel used in gravel-packed wells and the well casing shall be thoroughly sluiced with clean water and disinfected with a solution containing at least fifty ppm of chlorine for at least thirty minutes.

(5) Prior to use for drinking purposes, sufficient disinfectant (chlorine compound) shall be added to the standing water in the well to give a residual of fifty ppm free chlorine. The disinfectant should then be thoroughly mixed with the water in the well and shall remain in the well for a period of at least twenty-four hours, after which there shall remain a minimum of ten ppm free chlorine residual. The well shall then be flushed to remove all traces of chlorine. If testing indicates a presence of coliform bacteria, more stringent disinfection methods may be required by the department of social and health services or local health authority.

(6) Chlorine is a pollutant. Allow the chlorine in the rinse to dissipate before discharging the water. This water shall be discharged in a safe manner consistent with the intent of the Water Pollution Control Act, chapter 90.48 RCW.

NEW SECTION

WAC 173-160-415 ABANDONMENT OF WELLS. General. (1) Any well which is unusable, or whose use has been permanently discontinued, or which is in such disrepair that its continued use is impractical or is an environmental, safety or public health hazard shall be abandoned. The abandonment procedure (as prescribed by these regulations) of a well must be recorded and reported as required by the department.

(2) Wells which are abandoned to allow siting of potential sources of contamination within one hundred feet of the well shall be abandoned in one of the following manners:

(a) The casing shall be perforated from the bottom to within five feet of the land surface and pressure grouted.

(b) Withdraw the casing and fill the drill hole with grout or puddled clay, as the casing is being withdrawn.

(3) Piping of cementing materials directly to the point of application or placement by means of a dump bailer or tremie tube is recommended. If concrete, cement grout or neat cement, is used as a sealing material below the static-water level in the well, it should be placed from the bottom up by methods that avoid segregation or dilution of the material. When used to place grout, the discharge end of the tremie tube shall be submerged in the grout to avoid breaking the seal while filling the annular space.

NEW SECTION

WAC 173-160-425 ABANDONMENT OF WELLS—ABANDONMENT OF DRILLED OR JETTED WELLS. A cement grout or concrete plug shall be placed opposite all perforations or openings in the well casing. The remainder of the well shall be filled with cement grout, concrete or puddled clay.

NEW SECTION

NEW SECTION

WAC 173-160-455 ABANDONMENT OF WELLS—ABANDONMENT OF DUG WELLS. Clean chlorinated sand shall be installed to a point two feet above static water level. The remainder of the well to land surface shall be filled with clay, concrete or puddled clay.

NEW SECTION

WAC 173-160-465 ABANDONMENT OF WELLS—PLUG-GING OF TEST WELLS. Uncased wells shall be abandoned as prescribed for dug wells. In the abandonment of cased wells in which the well casing is to be removed, the well shall be plugged as the casing is withdrawn. The well shall be sealed with grout or puddled clay.

WAC 173-160-475 ARTIFICIAL RECHARGE OF GROUND-WATER BODIES. Approval must be obtained from the department before starting any project related to the artificial recharge of ground-water bodies.

(4) Cuttings and development water shall be managed in a manner consistent with the intent and purposes of the Water Pollution Control Act, chapter 90.48 RCW.

(5) A well identification number shall be permanently attached or engraved on the inner and outer well casings.

NEW SECTION

WAC 173-160-510 DESIGN AND CONSTRUCTION—SUR-FACE PROTECTIVE MEASURES. (1) Every resource protection well shall be capped and completed using one of the following methods:

(a) If the well is cased with metal and completed above the ground surface, a lockable cap shall be welded to the top of the casing.

- (b) If the well is not cased with metal and completed above the ground surface, a metal protective casing shall be installed around the well. The protective casing shall extend at least six inches above the top of the well casing and at least two feet into the ground. A lockable cap shall be welded to the top of the protective casing.
- (c) If the well is completed below ground surface, a lockable "water-meter cover," or equivalent, shall be installed around the well. - (b) A reinforced concrete pad may be installed to prevent freeze/thaw cracking of the surface seal. When a concrete pad is used, the well seal shall be part of the concrete pad.
- (c) A protective cover shall be installed when the well is completed below the ground surface. The cover must be designed to withstand the maximum expected loadings.

- (3) The protective measures may be waived, if the well is inspected at least weekly and is located in a secure area that is not susceptible to vandalism or to damage by vehicles or mowing.
- (4) If the well is to be protected by other surface protection methods, the owner shall obtain prior written approval from the department.
- (5) If the well is damaged, the well protection measures and casing shall be restored as prescribed by this chapter. If the well is damaged beyond repair, it shall be properly plugged and abandoned in accordance with WAC 173-160-560.

NEW SECTION

The casing shall not effect or interfere with the chemical, physical, radiological, or biological constituents of interest. All resource protection well casing shall conform to ASTM Standards, or at least Schedule 40 PVC, PTFE, or 304 or 316 stainless steel casing. Only threaded casing shall be used in areas of known or potential contamination.

Dated: October 6, 1987
By: John L. Chambers for Chairman, Board of Natural Resources
Commissioner of Public Lands

STATEMENT OF PURPOSE

Purpose of Rule: To set the application fee, annual rental rates and the annual prospecting work requirement for mineral prospecting leases, application fee, annual minimum royalty rates, production royalty rate and annual development work requirement for mining contracts, and the permit fee for recreational prospecting permits issued by the Department of Natural Resources.

Statutory Authority: Substitute Senate Bill 5193, chapter 20, Laws of 1987, RCW 79.01.088 and 79.01.720.

Summary of Rule and Reasons Therefore: Establishes the application fee, annual rental rates and the annual prospecting work requirement for mineral prospecting leases, the application fee, annual minimum royalty rates, production royalty rate and annual development work requirement for mining contracts, and the permit fee for recreational prospecting permits issued by the Department of Natural Resources. This rule is necessary to allow the Department of Natural Resources to issue leases, contracts and permits.

Proponent of Rule: Board of Natural Resources.

Agency Personnel Responsible for Drafting: Kenneth E. Solt, Manager, Division of Land Leasing, Department of Natural Resources, Olympia, WA 98504, (206) 753–2989; Implementation: Deputy Supervisor, State Lands, Department of Natural Resources, Olympia, WA 98504, (206) 753–5308, Kenneth E. Solt, Manager, Division of Land Leasing, Department of Natural Resources, Olympia, WA 98504, (206) 753–2989, and the appointed and acting regional managers of the Department of Natural Resources; and Enforcement: All of the above.

Small Business Impact: Mineral exploration is a limited activity in Washington state. It is the board's opinion that neither twenty percent of all industries nor ten percent of one industry are impacted by the proposed rule. The requirements for the payment of annual rentals and the performance of annual prospecting work will be the same for all lessees of state lands and the costs will not vary with the size of the business.

AMENDATORY SECTION (Amending Order 406, filed 12/6/83)

WAC 332-10-180 APPLICATION FEE. An applicant to purchase or lease any public land or valuable materials shall pay a twenty-five dollar application fee, except for ((prospecting leases or mining contracts fees as specified by WAC 332-16-040, and)) oil and gas leases as specified by WAC 332-12-230.

The annual development work requirement for a mining contract shall be \$5.00 per acre.

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.025. Re: Amending WAC 388-15-600, 388-15-610, 388-15-620 and 388-15-630.

Purpose of the Rule Change: To clarify the COPES program's purpose and eligibility requirements and to implement the legislature's and the governor's intent that low paid direct service workers should receive unit wage increases.

Reason These Rules are Necessary: To administer the program in conformity with the Code of Federal Regulations and the approved Medicaid waiver; and to implement the legislature's and the governor's intent. Governor Gardner vetoed section 207(3) of ESHB 1221 to avoid a shortfall in appropriations while "guaranteeing substantial wage increase for low paid direct service workers."

Statutory Authority: RCW 74.04.057 and ESHB 1221, partial veto and the June 22, 1987, letter from Governor Booth Gardner to Secretary Jule M. Sugarman.

Summary of Rule Change: To clarify that the program purpose is to prevent unnecessary institutionalization; to clarify that a feasible plan of care, developed and approved by the department which is sufficient to safeguard the recipient's health and welfare is a requirement for program eligibility; to delete an erroneous income eligibility requirement; and to increase the minimum and maximum individual and independent provider payment rates.

Name of Initiator: Mary Lou Pearson, COPES Program Manager, Aging and Adult Services Administration, Program Development Services, phone (206) 753-1244 or scan 234–1244, mailstop HB-11.

These rules are not necessary as a result of federal law, federal court decision, or state court decision.

STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.045. Amend WAC 440-44-100.

Purpose of the Rule Change: To update the license fee based on the annual cost study.

Reason the Change is Necessary: To generate revenue to cover the costs incurred in issuing the licenses.

Statutory Authority: RCW 43.20A.055.

Summary of Rule Change: Revise the farm labor camp health and sanitation permit and survey fees.

Person Responsible for Drafting, Implementation and Enforcement of the Rules: Byron Plan, Section Head, Accommodations Survey Section, Division of Health, mailstop ET-35, phone 586-0349.

Rule change proposed by DSHS.

This rule change is not necessary as a result of a federal law, a federal court decision or a state court decision.

The fees established by this regulation are assessed based on the dollar value of the application being reviewed. Since the fees are determined by the dollar value of the project rather than the size of the organization making the application, there is not a disproportionate impact between small and large businesses. In addition, it is anticipated that review activity will be minimal to nonexistent for those businesses with less than 50 employees.

These rules are not necessary as a result of federal law, federal court decision, or state court decision.

AMENDATORY SECTION (Amending Order 2342, filed 2/19/86)

The annual fee is due with application for initial certification or renewal. The annual fee for a certificate of occupancy for a labor camp shall be a flat fee of fifty-five dollars plus two dollars per each dwelling unit of six through one hundred units and one dollar per each dwelling unit in excess of one hundred units, provided that for fee purposes only, a space provided exclusively to accommodate a temporary worker supplied shelter shall not be considered a dwelling unit. A building or a part of a building intended for occupancy by one family or one tenant shall constitute a separate dwelling unit. Each seventy square feet of gross floor space in a dormitory shall constitute one dwelling unit. A labor camp with dwelling units or clusters of units at separate locations, each location having its own support facilities, shall be assessed a fee of fifty-five dollars per location plus two dollars per dwelling unit in excess of a cumulative total of five units when any two locations are located greater than five miles apart. A labor camp having less than five dwelling units at each and every location, regardless of the distance between the locations; shall be subject to only the flat fee of fifty-five dollars plus two dollars per dwelling unit in excess of five. This section does not apply to)) Starting December 1, 1987, owners or operators of labor camps, as defined in chapter 248-63 WAC, shall pay fees to the department as follows:

(1) A state health and sanitation permit of fifty dollars plus one dollar and fifty cents for each dwelling unit intended for occupancy by temporary workers.

(2) A labor camp survey charge of:

(a) Five dollars per dwelling unit up to and including twenty-nine units intended for occupancy by temporary workers, or

(b) One hundred fifty dollars for each camp with thirty or more dwelling units intended for occupancy by temporary workers

- (3) Owners or operators of labor camps shall submit the health and sanitation fee with initial application for permit or upon receipt of a renewal notice.
- (4) Owners or operators of labor camps shall submit the labor camp survey fee:

(a) With initial application for new labor camps, or
(b) Within thirty days after the department completes each survey for existing labor camps

(5) The department shall:

- (b) Collect no more than one survey fee from each labor camp annually.

(6) Labor camps regulated by local health officers in accordance with WAC 248-63-020 are excluded from the requirements in this section.

WSR 87-20-082 ADOPTED RULES DEPARTMENT OF RETIREMENT SYSTEMS

[Order 87-09-Filed October 7, 1987]

I, Robert L. Hollister, Jr., director of the Department of Retirement Systems, do promulgate and adopt at 1025 East Union, Olympia, WA, the annexed rules relating to this notice proposes to amend that section of chapter 415-112 WAC entitled service credit, by adding a new section which implements chapter 265, Laws of 1987. This section will direct the Department of Retirement Systems to adopt rules to ensure that the retirement benefit provided to teachers' retirement system members is not used to unfairly inflate a member's retirement allowance. This rule establishes procedure for clearly identifying those members of the teachers' retirement system who qualify for special retirement consideration if they are part-time employees as defined in the rule. It also precludes a procedure to be followed in determining what their compensation would have been if they were full-time employees.

This action is taken pursuant to Notice No. WSR 87-16-016 filed with the code reviser on July 24, 1987. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to chapter 41.32 RCW, as amended by chapter 265, Laws of 1987, and is intended to administratively implement that statute.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules. APPROVED AND ADOPTED October 2, 1987.

By Robert L. Hollister, Jr. Director

NEW SECTION

WAC 415-112-800 SCOPE. WAC 415-112-800 through 415-112-820 govern the application of RCW 41.32.010 (11)(a)(ii), as amended by section 1, chapter 265, Laws of 1987 and by section 2, chapter 265, Laws of 1987, and shall apply only to persons who became members prior to October 1, 1977.

NEW SECTION

WAC 415-112-810 BONA FIDE EMPLOYEE. The purpose of WAC 415-112-800 through 415-112-820 is to implement the intent of the legislature that section 2, chapter 265, Laws of 1987 not be used to unfairly inflate a member's retirement allowance. The department shall apply section 2, chapter 265, Laws of 1987 only to members who are bona fide part-time employees. A member will be deemed a bona fide part-time employee only if the member is employed less than full time and only as necessary to ensure that a member who receives fractional years of service credit receives benefits proportional to those received by members who have received full time service credit.

NEW SECTION

WAC 415-112-820 BONA FIDE PART-TIME POSITION—HOW DETERMINED. (1) In the case of a member who elects to have earnable compensation defined as provided in section 2, chapter 265, Laws of 1987, the department will determine whether the member held a bona fide part-time position during the years used to compute benefits, and what earnable compensation the member would have received if employed on a regular full-time basis in the same position under section 2, chapter 265, Laws of 1987. The department will consider, but not be limited to considering, the following factors:

- (a) The salary schedule and related workload provisions, if any, adopted pursuant to RCW 28A.67.066 by the school district by which the member was employed;
- (b) The salary schedule, workload provisions, or related documents, used by the community college district by which the member was employed, including salary schedules or workload provisions contained in a collective bargaining agreement negotiated pursuant to chapter 28B.52 RCW;
- (c) Whether the member's position is included on the employing district's salary schedule, in workload provisions, or in a collective bargaining agreement, and whether the member's position has duties, responsibilities, workload requirements, or methods of pay similar to those of positions found in the district's schedule, provisions, or collective bargaining agreement;
- (d) When the member's position was created, and how long the position was held by the member;
- (e) Whether the member has previously retired under the provisions of chapter 41.32 RCW.
- (2) Employers shall provide to the department information addressing the factors listed in subsection (1) of this section and such further information as the department may request.

The authority under which these rules are proposed is chapter 43.21A RCW.

The specific statute these rules are intended to implement is chapter 90.48 RCW.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before November 20, 1987.

This notice is connected to and continues the matter in Notice No. WSR 87-13-069 filed with the code reviser's office on June 17, 1987.

STATEMENT OF PURPOSE

Title: Water quality standards for waters of the state of Washington.

Description of Purpose: To amend chapter 173-201 WAC.

Statutory Authority: Chapter 43.21A RCW.

Summary of Rule: To adopt numeric toxic criteria, adopt total phosphorus limits for Long Lake, Spokane, and proposed upgrade of lower Yakima River to Class A, and other miscellaneous changes.

Reasons Supporting Proposed Action: Amendments reflect federal regulations and guidelines.

Agency Personnel Responsible for Drafting: Jerry Theilen, PV-11, 459-6076; Implementation and Enforcement: Marc Horton, PV-11, 459-6053.

Person or Organization Proposing Rule, and Whether Public, Private, or Governmental: Department of Ecology, state government.

Agency Comments or Recommendations Regarding Statutory Language, Implementation, Enforcement, Fiscal Matters: Amendments will strengthen the water quality standards and will provide for the use of more appropriate environmental indicators.

Whether Rule is Necessary as a Result of Federal Law or Federal or State Court Action: [No information supplied by agency.]

Small Business Economic Impact Statement: See attached.

Summary of Proposed Changes, Economic Analysis: Federal regulations (40 CFR Part 131.20) require that states at least once every three years conduct a review of their water quality standards. The department is currently conducting this triennial review.

Major proposed revisions include:

Adoption of numeric toxics criteria. The department is proposing to adopt "criteria values" for the protection of aquatic life, as published in USEPA's "Quality Criteria for Water," 1986 (QCW). Because current water quality standards state that the QCW shall be used as a source of information for the setting of criteria, no incremental increased costs to industry are anticipated as a result of this revision.

Establish a total phosphorus limit of 25 ug/L for Long Lake, Spokane County. The establishment of a 25 ug/L seasonal average concentration will require the use

of alternative treatment and/or disposal methods to accommodate growth in the area. At current discharge levels, no additional treatment or disposal methods are necessary.

Upgrade of the lower Yakima River (river mile 103.8 to mouth) from Class B to Class A. The establishment of more stringent (Class A) water quality criteria may require more restrictive effluent limits for BOD, nutrients, and bacteria in permitted discharges.

Chapter 173–201 WAC
WATER QUALITY STANDARDS FOR <u>SURFACE</u> WATERS OF
THE STATE OF WASHINGTON

AMENDATORY SECTION (Amending Order DE 82-12, filed 6/2/82)

WAC 173-201-010 INTRODUCTION. (1) The purpose of this chapter is to establish water quality standards for surface waters of the state of Washington consistent with public health and public enjoyment thereof, and the propagation and protection of fish, shellfish, and wildlife, pursuant to the provisions of chapter 90.48 RCW and the policies and purposes thereof.

(2) This chapter shall be reviewed periodically by the department

and appropriate revisions shall be undertaken.

(3) The water use and quality criteria set forth in WAC 173-201-035 through 173-201-085 are established in conformance with present and potential water uses of the surface waters of the state of Washington and in consideration of the natural water quality potential and limitations of the same. These shall be the sole criteria for said

AMENDATORY SECTION (Amending Order DE 82-12, filed 6/2/82)

WAC 173-201-025 DEFINITIONS. (1) Background conditions: The biological, chemical, and physical conditions of a water body, upstream from the point or nonpoint source of any discharge under consideration. Background sampling location in an enforcement action would be upstream from the point of discharge, but not upstream from other inflows. If several discharges to any water body exist, and enforcement action is being taken for possible violations to the standards, background sampling would be undertaken immediately upstream from each discharge.

(2) Department: State of Washington department of ecology.

(3) Director: Director of the state of Washington department of ecology.

(4) Hardness: A measure of the calcium and magnesium salts present in water. For purposes of this chapter, hardness is measured in milligrams per liter as calcium carbonate (C_aCO₃).

(5) Fecal coliform: That portion of the coliform group which is present in the intestinal tracts and feces of warm-blooded animals as detected by the product of acid or gas from lactose in a suitable culture medium within 24 hours at 44.5 plus or minus 0.2 degrees Celsius.

(((5))) (6) Geometric mean: The nth root of a product of n factors. (((6))) (7) Mean detention time: The time obtained by dividing a reservoir's mean annual minimum total storage by the 30-day tenyear low-flow from the reservoir.

(((77))) (8) Permit: A document issued pursuant to RCW 90.48.160 et seq. or 90.48.260 or both, specifying the waste treatment and control requirements and waste discharge conditions.

(((8))) (9) pH: The negative logarithm of the hydrogen ion concentration.

(((9))) (10) Primary contact recreation: Activities where a person would have direct contact with water to the point of complete submergence, including but not limited to skin diving, swimming and water skiing.

(((10))) (11) Secondary contact recreation: Activities where a person's water contact would be limited (wading or fishing) to the extent that bacterial infections of eyes, ears, respiratory or digestive systems or urogenital areas would normally be avoided.

(((+++))) (12) Surface waters of the state: Include lakes, rivers, ponds, streams, inland waters, saltwaters, and all other surface waters and water courses within the jurisdiction of the state of Washington.

(((12))) (13) Temperature: Water temperature expressed in degrees Celsius (°C).

(((+13))) (14) Turbidity: The clarity of water expressed as nephelometric turbidity units (NTU) and measured with a calibrated turbidimeter.

(((14))) (15) Upwelling: The annual natural phenomenon where the summer prevailing, northerly winds parallel to Washington's coast produce a seaward transport of surface waters. Cold, deeper more saline waters rich in nutrients and low in dissolved oxygen rise to replace the surface water. The cold, oxygen deficient water flows into Puget Sound and other coastal estuaries replacing the deep water with lower dissolved oxygen concentrations reaching the surface during late summer and fall.

(((15))) (16) USEPA: United States Environmental Protection Agency.

(((16))) (17) Wildlife habitat: Waters of the state used by fish, other aquatic life and wildlife for any life history stage or activity.

AMENDATORY SECTION (Amending Order DE 82-12, filed 6/2/82)

WAC 173-201-035 GENERAL CONSIDERATIONS. The following general guidelines shall apply to the water quality criteria and classifications set forth in WAC 173-201-045 through 173-201-085 hereof:

(1) At the boundary between waters of different classifications, the water quality criteria for the higher classification shall prevail.

(2) In brackish waters of estuaries, where the fresh and marine water quality criteria differ within the same classification, the criteria shall be interpolated on the basis of salinity; except that the marine water quality criteria shall apply for dissolved oxygen when the salinity is one part per thousand or greater and for fecal coliform organisms when the salinity is ten parts per thousand or greater.

(3) Except for acute criteria for toxic substances as described in WAC 173-201-047, the water quality criteria herein established shall not apply within an authorized dilution zone adjacent to or surrounding a waste-water discharge. Acute criteria must be met within ten percent of the distance from the edge of the outfall structure to the edge of the dilution zone in any direction.

(4) ((Generally,)) Dilution zones shall be described in a valid discharge permit, and shall be restricted in area so far as practicable with application of reasonably available technology. Dilution zones shall be

limited to that which will:

(a) Not cause acute conditions to the aquatic biota, or adversely affect public health.

(b) Not diminish aesthetic values or other beneficial uses.

(5) Waste discharge permits, whether issued pursuant to the National Pollutant Discharge Elimination System or otherwise, shall be conditioned in such manner as to authorize discharges which meet the water quality standards.

(a) However, persons discharging wastes in compliance with the terms and conditions of permits shall not be subject to civil and criminal penalties on the basis that discharge violates water quality standards

(b) Permits shall be subject to modification by the department whenever it appears to the department the discharge violates water quality standards. Modification of permits, as provided herein, shall be subject to review in the same manner as originally issued permits.

(((5))) (6) Nonpoint sources and water quality standards.

- (a) It is recognized that many activities not subject to a waste discharge permit system are now being performed in the state, which result in conflicts with the water quality standards of this chapter. Further, the department has not developed a program which, in a reasonable or fully satisfactory manner, provides methods or means for meeting such standards. Persons conducting such activities shall not be subject to civil or criminal sanctions for violation of water quality standards if the activities are either:
- (i) Conducted in accordance with management practices set forth by rules of the department.

For example, promulgation of regulations by the department which set forth approved management practices or other effluent limits shall be accomplished so that activities conducted within such regulations, (i.e., forest practices rules and regulations chapter 173-202 WAC and Title 222 WAC) will achieve compliance with water pollution control laws. When the regulations are violated, the water quality standard can be enforced as described in WAC 173-201-045 through 173-201-085; or,

- (ii) Subject to a regulatory order issued by the department relating to specific activities as provided for in WAC 173-201-100(2).
- (b) Management practices or regulatory orders described in WAC 173-201-035(((5))) (6) hereof, shall be subject to modification by the department whenever it appears to the department that the discharge violates water quality standards. Modification of management practices or regulatory orders, as provided herein, shall be subject to review in the same manner as the originally issued management practices or regulatory orders.
- ((((6))) (7) The water quality criteria herein established for total dissolved gas shall not apply when the stream flow exceeds the 7-day, 10-year frequency flood.
- (((7) The total area and/or volume of a receiving water assigned to a dilution zone shall be as described in a valid discharge permit as needed and be limited to that which will:
- (a) Not cause acute mortalities of sport, food, or commercial fish and shellfish species of established biological communities within populations or important species to a degree which damages the ecosystem.
- (b) Not diminish aesthetic values or other beneficial uses disproportionately:))
- (8) The antidegradation policy of the state of Washington, as generally guided by chapter 90.48 RCW, Water Pollution Control Act, and chapter 90.54 RCW, Water Resources Act of 1971, is stated as follows:
- (a) Existing beneficial uses shall be maintained and protected and no further degradation which would interfere with or become injurious to existing beneficial uses will be allowed.
- (b) No degradation will be allowed of waters lying in national parks, national recreation areas, national wildlife refuges, national scenic rivers, and other areas of national ecological importance.
- (c) Whenever waters are of a higher quality than the criteria assigned for said waters, the existing water quality shall be protected and waste and other materials and substances shall not be allowed to enter such waters which will reduce the existing quality thereof, except, in those instances where:
- (i) It is clear that overriding considerations of the public interest will be served, and
- (ii) All wastes and other materials and substances proposed for discharge into the said waters shall be provided with all known, available, and reasonable methods of treatment before discharge.
- (d) Whenever the natural conditions of said waters are of a lower quality than the criteria assigned, the natural conditions shall constitute the water quality criteria.
- (e) The criteria and special conditions established in WAC 173-201-045 through 173-201-085 may be modified for a specific water body on a short-term basis when necessary to accommodate essential activities, respond to emergencies, or to otherwise protect the public interest. Such modification shall be issued in writing by the director or his/her designee subject to such terms and conditions as he/she may prescribe. The aquatic application of herbicides which result in water use restrictions shall be considered an activity for which a short-term modification generally may be issued subject to the following conditions:
- (i) A request for a short-term modification shall be made to the department on forms supplied by the department. Such request generally shall be made at least thirty days prior to herbicide application.
- (ii) Such herbicide application shall be in accordance with state of Washington department of agriculture regulations.

- (iii) Such herbicide application shall be in accordance with label provisions promulgated by USEPA under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. (7 U.S.C. 136, et seq.)
- (iv) Notice, including identification of the herbicide, applicator, location where the herbicide will be applied, proposed timing and method of application, and water use restrictions shall be given according to the following requirements:
- (A) Appropriate public notice as determined and prescribed by the director or his/her designee shall be given of any water use restrictions specified in USEPA label provisions.
- , (B) The appropriate regional offices of the departments of fisheries and game shall be notified twenty-four hours prior to herbicide application.
- (C) In the event of any fish kills, the departments of ecology, fisheries, and game shall be notified immediately.
 - (v) The herbicide application shall be made at times so as to:
- (A) Minimize public water use restrictions during weekends.
- (B) Completely avoid public water use restrictions during the opening week of fishing season, Memorial Day weekend, July 4 weekend, and Labor Day weekend.
- (vi) Any additional conditions as may be prescribed by the director or his/her designee.
- (f) In no case, will any degradation of water quality be allowed if this degradation interferes with or becomes injurious to existing water uses and causes long-term ((and irreparable)) harm to the environment.
- (g) No waste discharge permit will be issued which violates established water quality criteria, except, as provided for under WAC 173-201-035 (8)(e).
- (9) Due consideration will be given to the precision and accuracy of the sampling and analytical methods used as well as existing conditions at the time, in the application of the criteria.
- (10) The analytical testing methods for these criteria shall be in accordance with((, the most recent editions of "Standard Methods for the Examination of Water and Wastewater," published by the American Public Health Association, American Water Works Association, and the Water Pollution Control Federation, and "Methods for Chemical Analysis of Water and Wastes," published by USEPA)) the "Guidelines Establishing Test Procedures for the Analysis of Pollutants" (40 C.F.R. Part 136) and other or superseding methods published and/or approved by the department following consultation with adjacent states and concurrence of the USEPA.
- (11) Deleterious concentrations of radioactive materials for all classes shall be as determined by the lowest practicable concentration attainable and in no case shall exceed:
- (a) 1/100 of the values listed in WAC 402-24-220 (Column 2, Table II, Appendix A, rules and regulations for radiation protection); or,
- (b) USEPA Drinking Water Regulations for radionuclides, as published in the Federal Register of July 9, 1976, or subsequent revisions thereto.
- (12) ((Deleterious concentrations of toxic, or other nonradioactive materials, shall be determined by the department in consideration of the Quality Criteria for Water, published by USEPA 1976, and as revised, as the authoritative source for criteria and/or other relevant information, if justified.
- (13)) Nothing in this chapter shall be interpreted to be applicable to those aspects of governmental regulation of radioactive wastes which have been preempted from state regulation by the Atomic Energy Act of 1954, as amended, as interpreted by the United States Supreme Court in the cases of Northern States Power Co. v. Minnesota 405 U.S. 1035 (1972) and Train v. Colorado Public Interest Research Group, 426 U.S. 1 (1976).
- (((14))) (13) Nothing in this chapter shall be interpreted to prohibit the establishment of effluent limitations for the control of the thermal component of any discharge in accordance with Section 316 of the Federal Clean Water Act (((P.L. 95-217 as amended)) 33 U.S.C. 1251 et seq.).

(viii) Aesthetic values shall not be impaired by the presence of materials or their effects, excluding those of natural origin, which offend

the senses of sight, smell, touch, or taste.

AMENDATORY SECTION (Amending Order DE 82-12, filed 6/2/82)

WAC 173-201-090 ACHIEVEMENT CONSIDERATIONS. To fully achieve and maintain the foregoing water quality in the state of Washington, it is the intent of the department to apply the various implementation and enforcement authorities at its disposal, including participation in the programs of the Federal Clean Water Act (((P.L. 95-217)) 33 U.S.C. 1251 et seq.) as appropriate. It is also the intent that cognizance will be taken of the need for participation in cooperative programs with other state agencies and private groups with respect to the management of related problems. The department's planned program for water pollution control will be defined and revised annually in accordance with section 106 of said federal act. Further, it shall be required that all activities which discharge wastes into waters within the state, or otherwise adversely affect the quality of said waters, be in compliance with the waste treatment and discharge provisions of state or federal law.

AMENDATORY SECTION (Amending Order DE 77-32, filed 1/17/78)

WAC 173-201-100 IMPLEMENTATION. (1) Discharges from municipal, commercial, and industrial operations. The primary means to be used for controlling municipal, commercial, and industrial waste discharges shall be through the issuance of waste disposal permits, as provided for in RCW 90.48.160 and following.

(2) Miscellaneous waste discharge or water quality effect sources. The director shall, through the issuance of regulatory permits, directives, and orders, as are appropriate, control miscellaneous waste discharges and water quality effect sources not covered by WAC 173-201-100(1) hereof. It is noted that, from time to time, certain shortterm activities which are deemed necessary to accommodate essential activities or to otherwise protect the public interest may be specially authorized by the director as indicated in WAC 173-201-035 (8)(e), under such conditions as the director may prescribe, even though such activities may result in a reduction of water quality conditions below those criteria and classifications established by this regulation.

STATEMENT OF PURPOSE

Title and Number of Rule Section(s) or Chapter(s): WAC 296-17-895 Industrial insurance accident fund base rates and medical aid rates by class of industry; and WAC 296-17-850 and 296-17-875 through 296-17-890 Experience rating tables, WAC 296-17-350 and 296-17-480.

Statutory Authority: RCW 51.04.020(1).

Specific Statute that Rule is Intended to Implement: RCW 51.16.035.

Summary of the Rule(s): The accident fund and medical aid rates are being adjusted for each risk classification to reflect changes in the frequency and severity of accidents based upon more current experience. Although these proposals do not contain a change to the overall average premium rates, certain classifications will experience an increase in rates while others will decrease. The experience rating revisions will reflect the most current experience in calculating the individual employer's experience factor. Revise reporting requirements for persons who have elected coverage; repeal WAC 296-17-480; revise WAC 296-17-850, experience rating of construction classifications; general housekeeping revisions to clarify the scope of certain risk classifications.

Reasons Supporting the Rule(s): The elimination of the deficit in the accident and medical aid funds during the last year has resulted in maintaining the rates at the current level. A realignment of rates based upon the most current experience of each risk classification is being proposed to provide rates reflective of each

classification's potential for loss. The revision to the experience rating rules allows for the calculation of individual employer's experience factors based upon more current experience as required by WAC 296-17-850. The revision to the reporting requirements for persons electing coverage provides an additional method of reporting hours worked by allowing the reporting of actual hours worked instead of a mandatory requirement of 160 hours a month. The repeal of WAC 296-17-480 and the revision to WAC 296-17-850 reflect statutory amendments enacted during previous legislative sessions. The general housekeeping revisions clarify the scope and intent of certain risk classifications.

Agency Personnel Responsible for Drafting, Implementation and Enforcement of the Rule(s): Joseph A. Dear, Director, 753-6307; Robert B. Lewis, Assistant Director for Industrial Insurance, 753-5173; and Alan D. Spadoni, Assistant Director for Employer Services, 753-5371, General Administration Building, HC-281, Olympia, Washington 98504.

Name of Person or Organization, Whether Private, Public, or Governmental, that is Proposing the Rule(s): State of Washington, Department of Labor and Industries.

Agency Comments or Recommendations, if any, Regarding Statutory Language, Implementation, Enforcement, and Fiscal Matters Pertaining to the Rule(s): None.

These rules are not proposed to comply with a federal law or a federal or state court decision.

Any Other Information that may be of Assistance in Identifying the Rule or its Purpose: None.

Small Business Economic Impact Statement: This statement pertains to revisions in chapter 296-17 WAC, proposed by the Department of Labor and Industries to become effective January 1, 1988, and is prepared to conform with section 3(2) and section 4 of the Regulatory Fairness Act (chapter 6, Laws of 1982).

Existing Rules: Chapter 296-17 WAC presently defines 270 risk classifications for purposes of reporting exposures and computing premiums for workers' compensation insurance. Base rates are established separately for industrial insurance and medical aid coverage in each risk classification within these rules, and an assessment rate for all risk classes is prescribed for the supplemental pension. An "experience rating plan" is also established, which provides adjustment of the base industrial insurance rate by class up or down to a "merit rate" based upon past reporting experience of each individual employer.

Treatment of Small Business Under Existing Rules: Class definitions are keyed to the nature of an employer's business and/or employment, and are independent of business size. Once applicable classes are determined, base rates are identical for all employers within each class. Experience-rating increases or decreases individual employer's industrial insurance rates, providing rate reductions for favorable past experience and rate increases for unfavorable past experience. Within the experience-rating plan, small employers with loss-free records in the rating experience period are allowed rate credits in excess of those initially computed by the rating

plan based on risk size, by a maximum modification for loss-free firms of various sizes in WAC 296-17-890. Currently the reporting requirements require executive officers, partners and sole proprietors to report 160 hours per month for premium purposes.

Effect of Proposed Revisions: The overall premium level for the accident fund, medical aid fund and supplemental pension assessment will not change from the current level. Some risk classification's base rates for the accident fund and medical aid fund will increase while other classifications will experience a decrease. Likewise, data in the experience rating plan will adjust individual employer's experience factors. The effect of these proposals will be dependent upon the claims experience of the individual employer for the experience rating adjustment and upon the experience of the risk classifications assigned to the employer for the base rate realignment. For employers in the same risk classification having experience records producing the same experience factor, the premium cost per hour of labor will be independent of the size of the employer. Administrative costs of recordkeeping and reporting should not be affected as the required records and forms are unchanged. The revision to the reporting requirements will allow persons electing coverage the option of reporting actual hours worked if records are maintained. The repeal of the penalty assessment rule reflects a statutory change which provided lower penalty assessments for failure to file quarterly reports and/or pay premiums. The experience rating rule is being revised to be consistent with prior legislative and WAC rule changes allowing for the experience rating of the construction industry.

AMENDATORY SECTION (Amending Order 87-12, filed 5/29/87, effective 7/1/87)

WAC 296-17-310 GENERAL RULES AND INSTRUCTIONS. This section constitutes general rules and instructions for chapter 296-17 WAC.

(1) Purposes. This chapter of the Washington Administrative Code, including classifications of risk, premium rates, the experience rating plan, and all other rules contained herein governing the use thereof, is herein referred to as the manual. This manual is promulgated by the department of labor and industries pursuant to RCW 51.16.035. This manual contains a formulation of the rules and regulations providing for basic classifications, rates of premium, method of premium calculation and collection, and a rating system, consistent with recognized principles of workers' compensation insurance. This manual governs the department's underwriting of workers' compensation insurance and assessment of other monetary obligations, under the industrial insurance law of the state of Washington, Title 51 RCW.

(2) Overview. Washington law (RCW 51.16.035) requires that the department of labor and industries classify all occupations or industries by degree of hazard. To accomplish this, the department has established approximately two hundred seventy basic classifications of risk embracing the various industries within the state (the actual number may vary from year to year). These basic classifications are set forth in WAC 296-17-501 through 296-17-779. The general principles and objectives of the basic classification system are set forth in WAC 296-

The first step in determining the appropriate classification for an employer is to determine the nature of the employer's business being insured in this state. If the department determines that an employer's business consists of a single operation or a number of separate operations which normally prevail in that business then the single enterprise rule (WAC 296-17-380) is applicable. This rule provides that the department is to assign the single basic classification which most accurately describes the employer's entire enterprise. This process begins with the search for a basic classification which specifically describes

the employer's business. If such a basic classification is found the process of assigning a basic classification is complete.

If the employers' business operation is not specifically described by any basic classification then the employer's business is to be classified as provided for in WAC 296–17–360 (assignment of classification by analogy). In classifying by analogy the department examines the process and hazard of the employer's business and compares it to that of other basic classifications with processes and hazards that are similar to those of the employer's business and assigns the most analogous classification on that basis.

In the event that a review of the employer's business operations indicates the possibility that the employer conducts more than one business within this state, a determination will be made as to whether any additional basic classifications should be assigned on the basis of the criteria set out in the multiple enterprise rule (WAC 296-17-390).

Once the employer's basic classification has been established, the department must determine whether additional classifications should be assigned to apply to specific employments within an employer's business such as the standard exception rule (WAC 296-17-440), the general exclusion rule (WAC 296-17-430), the special exception rule (WAC 296-17-441), or those indicated by the language of any applicable basic classifications that permit or require separate reporting of any operations within that business or industry or as otherwise provided by this chapter.

- (3) Premium payments quarterly reports. Each employer shall, upon such forms as prescribed by the department, prior to the last day of January, April, July and October of each year, pay to the department for the preceding calendar quarter, for the accident fund, and for the medical aid fund, a certain number of cents for each worker hour or fraction thereof worked by the worker in their employ except when the rules of this manual provide for a different method of premium computation. Provided, that in the event an employer has no employment subject to coverage under Title 51 RCW during a calendar quarter the employer shall submit to the department, according to the schedule described above, a quarterly report indicating "no payroll" or be subject to the penalties provided for in ((WAC 296-17-480)) RCW 51.48.030. The director may promulgate, change and revise such rates at such times as necessary, according to the condition of the accident and medical aid funds, and assign rates as appropriate to employers who voluntarily seek coverage under the elective adoption provisions of
- (4) Determining accident fund premium. The amounts to be paid into the accident fund shall be determined as follows: The department shall determine a manual premium rate for each classification which shall not be inadequate, excessive or unfairly discriminatory, taking into consideration past and prospective costs in each classification and the financial condition of the accident fund as a whole.

Every employer shall pay into the accident fund at the manual premium rate unless such employer meets the requirements for the experience rating plan provided elsewhere in this manual, in which event such employer's premium rate for the accident fund shall be paid according to their experience modification as determined under the experience rating plan.

(5) Basis for determining medical aid premium. The amounts to be paid into the medical aid fund shall be determined as follows: The department shall determine a basic medical aid rate for each classification which shall not be inadequate, excessive or unfairly discriminatory, taking into consideration past and prospective costs in each classification and the financial condition of the medical aid fund as a whole.

Every employer shall pay into the medical aid fund at the basic premium rate only, and the experience rating plan shall not apply to medical aid rates.

(6) All section captions or titles or catch lines used in this manual, chapter 296-17 WAC, do not constitute any part of these rules.

(7) Assignment of classifications. The classifications in this manual are all basic classifications other than the standard exception classifications which are defined in WAC 296-17-440. Basic classifications are used to implement the object of the classification system, which is to assign the one basic classification which best describes the business of the employer within this state. Each basic classification includes all the various types of labor found in a business unless it is specifically excluded by language contained within the classification or covered by a separate rule found elsewhere in this chapter, such as "standard exceptions" or "general exclusions." The classification procedure used within this state is intended to classify the business undertaking of the employer and not the separate employments, occupations, or operations of individuals within a business.

In the event an employer operates a secondary business within this state, multiple basic classifications can be assigned provided that the conditions set forth in WAC 296-17-390 "multiple enterprises" have been met. However, construction or erection operations are to be assigned classifications as provided in subsection (8) of this section.

(8) Construction or erection operations. Each distinct type of construction or erection operation at a job site or location shall be assigned to the basic classification describing that operation provided separate payroll records are maintained for each operation.

In the event separate payroll records are not maintained the entire number of worker hours for such operations shall be assigned to the highest rated classification which applies to the job site or location where the operation is performed.

Separate construction or erection classifications shall not be assigned to any operation which is within the scope of another basic classification assigned to such a job site or location.

- (9) Classification assignment of separate legal entities. Each separate legal entity shall be assigned to the basic classification or classifications which best describe its operations within the state using the classification procedures outlined in subsections (2), (7), and (8) of this section.
- (10) All operations. Each basic classification in this manual, other than classifications 4806, 4904, 5206, 6301, 6302, 6303, 7101, or the temporary help classifications 7104 through 7109, include all the operations normally associated with the business undertaking without regard to the location(s) of such operation(s) unless an operation is specifically excluded from the manual language of the basic classification.

AMENDATORY SECTION (Amending Order 85-7, filed 2/28/85, effective 4/1/85)

WAC 296-17-350 MINIMUM PREMIUMS—ASSUMED WORKER HOURS. A minimum premium is the lowest amount of premium to be paid by an employer and is also the basis for determining premium computation for workers for whom an assumed number of worker hours must be, and hereby, is established:

(1) Minimum premium. Except as otherwise provided in this chapter, every employer shall be liable for a premium not less than ten dollars for any calendar quarter regardless of number of worker hours reported.

- (2) ((Minimum premium for elective adoption. Any employer having in their employ any person exempt from mandatory coverage whose application for coverage under the elective adoption provisions of RCW 51.12:110 is accepted by the director, shall have a minimum premium rate for such employer's applicable class based upon not less than 40 worker hours for each month, until such time as elective adoption coverage is cancelled: PROVIDED, That the minimum premium rate as specified above shall not apply to sole proprietors, partnerships, or executive officers obtaining coverage subject to other provisions of this chapter.)) Excluded employments. Any employer having any person in their employ excluded from industrial insurance whose application for coverage under the elective adoption provisions of RCW 51.12.110 or authority of RCW 51.12.095 or 51.32.030 has been accepted by the director shall report and pay premium on the actual hours worked for each such person who is paid on an hourly, salariedpart time, percentage of profit or piece basis; or one hundred sixty hours per month for any such person paid on a salary basis employed full time. In the event records disclosing actual hours worked are not maintained by the employer for any person paid on an hourly, salaried-part time, percentage of profits or piece basis the worker hours of such person shall be determined by dividing the gross wages of such person by the state minimum wage for the purpose of premium calculation. However, when applying the state minimum wage the maximum number of hours assessed for a month will be one hundred sixty.
- (3) Resident managers, caretakers, or similar employments that are employed for irregular periods and whose compensation is for a stipulated sum in money or a substitute for money shall be reported for the purpose of premium calculation as provided in subsection (6) of this section.
- (4) Commission personnel. Commission personnel are persons whose compensation is based upon a percentage of the amount charged for the commodity or service rendered. Commission personnel are to be reported for premium purposes at a minimum of assumed worker hours of not less than eight worker hours a day for part-time employment, or not less than 40 worker hours per week for full-time employment: PROVIDED, That the assumed eight worker hours daily for

part-time employment will apply only if the employer's books and records are maintained so as to show separately such person's actual record of employment.

- (5) Salaried personnel. Salaried personnel for the purposes of this chapter means persons whose compensation is not governed by the number of hours devoted to employment for their employer. Employers having salaried personnel in their employ shall for the purpose of premium calculation report assumed worker hours based upon one hundred sixty worker hours for each month in which the employee is on salary: PROVIDED, That if the employer maintains complete and accurate records, supported by original time cards or timebook entries, the employer may report and pay premium on the actual hours worker by salaried personnel((. All salaried personnel must be reported in the same manner)): PROVIDED FURTHER, That the department may, at its discretion, authorize some other method in assuming workers hours for premium calculating purposes in the case of contract personnel employed by schools and/or school districts.
- (6) Piece workers. Employees whose compensation is based upon the accomplishment of a number of individual tasks whether computed on the number of pounds, items, pieces, or otherwise, the employer shall for the purpose of premium calculation assume each two dollars of earnings of each employee as representing one worker hour: PROVID-ED, That if the average rate of compensation for the applicable classification is at least \$3.00 but less than \$3.50 per worker hour the assumed amount shall be \$3.00 of earnings as representing one worker hour, and on a progressive basis, if the average compensation is at least \$3.50 but less than \$4.00 the assumed amount shall be \$3.50 of earnings as representing one worker hour, and so forth. The records of the department as compiled for the preceding fiscal year ending June 30, shall be the basis for determining the average rate of compensation for each classification: PROVIDED FURTHER, That if the employer maintains books and records to show separately the hours employed for each worker in their employ engaged in piece work then such actual worker hours shall be reported for the purpose of premium calculation. Notwithstanding any other provisions of this section, workers employed in a work activity center pursuant to WAC 296-17-779 shall be reported on the basis of the piece worker rule.
- (7) Noncontact sports teams. All employers having personnel in their employ as defined under WAC 296-17-745 shall for the purpose of premium calculations, report assumed worker hours based upon 40 worker hours for each week in which any duties are performed.
- (8) All employers having personnel in their employ as defined under WAC 296-17-739 shall, for the purpose of premium calculations, report assumed worker hours based upon ten hours for each mount in each horse race; professional drivers shall report worker hours based upon ten hours for each heat or race of any racing event: PROVIDED, That any day such personnel do not ride or drive in a race, the premium calculation shall be made by assuming ten worker hours for any day in which duties are performed.
- (9) Pilots and flight crew members having flight duties during a work shift including preflight time shall have premium calculated by utilizing daily readings logged per federal requirements of the aircraft tachometer time: PROVIDED, That if the total tachometer time for any day includes a fraction of an hour, the reportable time will be increased to the next full hour: PROVIDED FURTHER, That pilots and flight crew members who assume nonflying duties during a work shift will have premium calculated in accordance with the appropriate rules and classifications applicable to nonflight duties.

AMENDATORY SECTION (Amending Order 87-12, filed 5/29/87, effective 7/1/87)

WAC 296–17–440 STANDARD EXCEPTIONS. The following employments referred to as standard exceptions are to be separately rated unless these employments are specifically included within the scope of a basic classification by use of words such as "including clerical office and outside sales." (Use of the words "clerical office" will also include draftsmen and use of the words "sales personnel" will also include collectors ((and)), messengers and corporate officers.) Provided that a division of a single employee's worker hours shall not be permitted between two standard exception classifications or between a standard exception classification and a basic business classification except as provided in the general exclusion rules of this manual.

The standard exceptions are defined below:

(1) Clerical office employees are defined as those employees whose duties are confined to keeping the books or records of the employer, or conducting correspondence or who are engaged wholly in office work

where such books or records are kept or where such correspondence is conducted, having no other duty of any nature in or about the employer's premises. If any clerical office employee is exposed to any operative hazard of the business, their entire worker hours shall be assigned to the highest rated classification of work to which they are exposed. The clerical office classification shall be applied only to persons as herein described who are employed exclusively in separate buildings or on separate floors of buildings or in departments on such floors which are physically separated from all other work areas of the employer by structural partitions and within which no work is performed other than clerical office duties as defined in this paragraph.

(2) Draftsmen will be considered to be clerical office employees when their duties are limited to office work only and who are engaged strictly as draftsmen in such a manner that they are not exposed to the operative hazard of the business. If any draftsman is exposed to any operative hazard of this business, their entire worker hours shall be assigned to the highest rated classification of work to which they are exposed.

(3) "Sales personnel – outside" are defined as those employees engaged in such duties away from the premises of the employer who sell or solicit new accounts or customers for the employer. Provided that no employee shall be assigned to a sales classification code if their duties include delivery, even though they may also solicit or collect. Employees having delivery duties, even if they walk or use public transportation, shall be assigned to the governing classification of the employer.

(4) Messengers will be considered sales employees, provided the following conditions are met:

(a) The messenger is used solely by the employer in connection with the administration of the employer's business operation.

(b) The operation is not provided to the public as a general delivery service.

(c) The employer's basic classification does not include the standard exception classification designations.

If all the above conditions do not exist, any employee assigned such duties shall be assigned to the governing classification of the employer when multiple basic classifications are assigned or to the basic classification in the event an employer has only a single basic classification assigned.

(5) ((Executive officers as defined in WAC 296-17-330:)) Corporate officers are defined as those employees of a corporation elected and empowered in accordance with the articles of incorporation or bylaws as officers of the corporation who are also shareholders and serve on the board of directors of the corporation and whose duties are limited to administrative, clerical office and outside sales activities for the corporations. Any corporate officer who performs any duty that relates directly to the operational activities of the business shall be assigned to the basic classification(s) of the employer applicable to the work being performed. In no event however will a corporate officer be assigned the clerical office classification 4904.

With the exceptions of occupations falling within any classification that specifically includes clerical office, inside draftsmen or sales personnel, the following designated occupational classifications shall apply.

'Classification 4904 clerical office employees including inside draftsmen.

Classification 6303 sales personnel, outside or away from the employers premises including collectors and messengers.

Classification 6301 automobile, truck, camper, trailer, mobile home, motorcycle and pleasure craft sales personnel.

Classification 6302 all door to door sales personnel. Classification 7101 ((executive)) corporate officers.

AMENDATORY SECTION (Amending Order 87-12, filed 5/29/87, effective 7/1/87)

WAC 296-17-505 CLASSIFICATION 0105.

WAC 296-17-850 EXPERIENCE RATING PLAN—ELIGI-BILITY AND EXPERIENCE PERIOD. (1) Eligibility. Each employer who has reported experience during more than one fiscal year of the "experience period" shall have his base rates multiplied by an "experience modification" calculated in accordance with the rules of this manual. The development of the "experience modification" as set forth in WAC 296-17-855 shall include losses and exposure reported in all risk classes((: PROVIDED, That the "experience modification" determined in accordance with WAC 296-17-855 shall not apply to industrial insurance rates in the following classes: 0505, 0506, 0507, 0510, 0511, 0512, and 0513. Employer premiums in the foregoing classes shall be computed at base industrial insurance rates as set forth in WAC 296-17-895)).

(2) Experience period. The "experience period" shall be the oldest three of the four fiscal years preceding the effective date of premium rates as set forth in WAC 296-17-895.

AMENDATORY SECTION (Amending Order 86-41, filed 11/26/86)

WAC 296-17-855 EXPERIENCE MODIFICATION. The basis of the experience modification shall be a comparison of the actual losses charged to an employer during the experience period with the losses which would be expected for an average employer reporting the same exposures in each classification. The comparison shall contain actuarial refinements designed to mitigate the effects of losses which may be considered catastrophic or of doubtful statistical significance, due consideration being given to the volume of the employer's experience. Except for those employers who qualify for an adjusted experience modification as specified in WAC 296-17-860 or 296-17-865, the experience modification shall be calculated from the formula:

$$\frac{Ap + WAe + (1-W) Ee + B}{E + B}$$

The components Ap, WAe, and (1-W) Ee are values which shall be charged against an employer's experience record. The component, E, shall be the expected value of these charges for an average employer reporting the same exposures in each classification. The meaning and

function of each symbol in the formula is specified below.

"Ap" signifies "primary actual losses." For each claim the primary actual loss is defined as that portion of the claim which is considered completely rateable for all employers and which is to enter the experience modification calculation at its full value. For each claim in excess of \$((5,404)) 4,416 the primary actual loss shall be determined from the formula:

Primary loss =
$$\frac{((13,510))}{\text{Total loss} + ((8,106))} \frac{11,040}{\text{x total loss}}$$

Primary actual losses for selected claim values are shown in Table I. For each claim less than ((5,404)) 4,416 the full value of the claim shall be considered a primary loss.

"Ae" signifies "excess actual losses." For each claim the excess actual loss is defined as that portion of the claim which is not considered completely rateable for all employers. The excess actual loss for each claim shall be determined by subtracting the primary loss from the to-

"W" signifies "W value." For each employer, the W value determines the portion of the actual excess losses which shall be included in the calculation of his experience modification, due consideration being given to the volume of his experience. This amount is represented by the symbol "WAe" in the experience modification formula. W values are set forth in Table II.

"E" signifies "expected losses." An employer's expected losses shall be determined by multiplying his reported exposure in each classification during the experience period by the classification expected loss rate. Expected loss rates are set forth in Table III.

"Ee" signifies "expected excess losses." Expected losses in each classification shall be multiplied by the classification "D-Ratio" to obtain "expected primary losses." Expected excess losses shall then be calculated by subtracting expected primary losses from expected total losses. Each employer shall have a statistical charge included in the calculation of his experience modification, said charge to be actuarially equivalent to the amount forgiven an average employer because of the exclusion of a portion of his excess actual losses. This charge is represented by "(1-W) Ee" in the experience modification formula. D-Ratios are set forth in Table III.

"B" signifies "B value" or "ballast." In order to limit the effect of a single severe accident on the modification of a small employer, a stabilizing element (B value) shall be added to both actual and expected losses. B values are set forth in Table II.

STATEMENT OF PURPOSE

In the matter of amending WAC 480-120-031 relating to telecommunications companies.

This supplements the statement of purpose and implementation filed in the above-entitled matter on August 12, 1987, in connection with a rule making initiated under WSR 87-17-026. The enunciated purpose was and continues to be adoption with certain exceptions of the uniform system of accounts prescribed by the Federal Communications Commission for all Class A and B telecommunications companies. Following consideration of the rules as originally proposed, substantive changes were made, requiring republication. Rules proposed under the current notice reflect those changes, and invite further comment from all interested persons for further consideration in due course.

In all other respects, the initial statement of purpose and implementation remains in effect.

This certifies that copies of this statement are on file with the commission, are available for public inspection, and that three copies of this statement are this date being forwarded to the Joint Administrative Rules Review Committee.

APPENDIX "A"

AMENDATORY SECTION (Amending Order R-247, filed 6/27/86)

WAC 480-120-031 ACCOUNTING. (1) Except as provided in this rule, the Uniform System of Accounts (USOA) for Class A and Class B Telephone Companies published by the Federal Communications Commission (FCC) and designated as ((Volume VIII,)) Part ((3+)) 32, is hereby prescribed for ((use of)) booking and recording purposes for telecommunications companies in the state of Washington.

(2) Telecommunications companies operating within this state shall be classed by revenue as follows:

Class	Annual Gross Operating Revenue
Α	Equal to or Exceeding $((\$100,000))$ $\$25,000,000$
В	((\$100,000)) Less than \$25,000,000 or less

((Companies that desire more detailed accounting may adopt the accounts prescribed for a higher classification of telecommunications companies: PROVIDED, That the commission is notified promptly of such action. Such companies are required to comply with the more detailed reporting requirements contained in the rules respecting such higher classification.

Any provisions contained in the Uniform system of Accounts adopted in paragraph one above which is contrary to paragraph two and three above are hereby deleted.))

Upon notice to the commission in writing filed not later than December 15, 1987 all carriers must state their intention to implement the FCC Part 32 Uniform System of Accounts as either a Class A or Class B carrier, and seek Commission approval for such classification. After November 1, 1987, upon notice to the commission, and if authorized by the Commission, a company desiring more detailed accounting may adopt the accounts prescribed for a higher classification. Upon such notification, companies in the lower classification shall be required to comply with the more detailed accounting and reporting

specified for the higher classification. Any election to the contrary notwithstanding, the Commission reserves the right to require any company to comply with the accounting requirements applicable to the

higher classification

(3) Jurisdictional differences. For Account 7910—Income Effect of Jurisdictional Ratemaking Differences-Net; Account 1500-Other Jurisdictional Assets-Net; Account 4370-Other Jurisdictional Liabilities and Deferred Credits-Net, and in a subaccount of Account 4550-Retained Earnings, the exchange telecommunications companies operating in this state shall keep subsidiary accounts and records reflecting in separate accounts and subaccounts the Washington intrastate differences in amounts arising from the departure of this commission for booking and/or ratemaking purposes from FCC prescribed accounting. Separate subaccounts shall be kept for each difference. Examples include, but are not limited to, separate accounting for the booking of an Allowance for Funds Used During Construction (AFUDC) for Short-Term Construction Work in Progress (Account 2003, formerly subdivision (1) of Account 100.2); flow-through accounting of tax timing differences to the extent permitted by tax regulations (unless specific exceptions to the flow-through requirement have been granted or required by the Commission); elimination of excess profits for affiliated transactions; or such other company specific ratemaking or accounting treatment ordered by the commission in any case involving the rates of a specific company, or in other accounting directives issued by the commission.

(a) All local exchange telecommunications companies shall account of January 1, 1988, for any embedded jurisdictional ratemaking differences by incorporating any previous jurisdictional differences side-records accounts, and any other accounting directives made by the commission, into the appropriate jurisdictional differences account.

(b) All companies shall expense currently any costs associated with

the implementation of Part 32.

(c) During the period beginning January 1, 1988, and concluding December 31, 1988, each telecommunications company required to file monthly or quarterly reports shall file its periodic reports showing, at a minimum, total revenues, expenses, taxes, net operating income and rate base. To the extent possible, prior periods should be restated for purposes of data continuity. After December 31, 1988 normal reporting requirements will resume.

(d) All companies shall keep subsidiary records as may be necessary to report readily the source of Washington intrastate local exchange network services revenues by residential and business class of service.

(e) All telecommunication companies subject to this rule shall keep subsidiary accounts in Account 5084—State Access Revenue, showing separately intrastate revenues from end users (subscriber line charges), special access revenues, and interLATA and intraLATA access revenues, which shall be identified as either traffic sensitive, non-traffic sensitive, independent company settlements, or other access revenues.

(f) Any company filing with the FCC reports in compliance with the requirements of Part 32, Paragraph 32.25 of Subpart B, Unusual Items and Contingent Liabilities, relating to extraordinary items, prior period adjustments, or contingent liabilities shall file a copy of such

report concurrently with this commission.

(g) As to a leased asset which is or has been used in the provision of utility service, unless an alternate accounting treatment has been specifically approved by the Commission, any company which capitalizes leases in accordance with FASB-13 shall capitalize such leases at the lower of their original cost or the present value of the minimum lease payments. For purposes of this section "Original Cost" is defined as the net book value of the leased property to the lessor at the inception of the lease. If all efforts by a company to obtain original cost information fail, and the original cost can not be reasonably estimated, then the companies will file a request with the Commission seeking approval to record the asset at the lower of the fair market value of the asset or the present value of the minimum lease payments.

When the asset in question has never been used in the provision of utility service, any company which capitalizes leases in accordance with FASB-13 shall capitalize such leases at the lower of their fair market value or the present value of the minimum lease payments.

(h) Unless specific exceptions are granted, or required, all Companies shall keep records for ratemaking and/or booking purposes which flow-through tax benefits to the extent permitted by federal tax regulations. Any jurisdictional ratemaking differences, created by this rule, shall be reflected in accounts provided in Part 32 for jurisdictional differences, more specifically Accounts 1500, 4370, and 7910. See Sections 3(i) and 3(m) for further exceptions to this rule.

(i) As to compensated absences and sick pay, if payment of nonvesting accumulated sick pay benefits depends on the future illness of an employee, companies shall not accrue a liability for such an expense for purposes of portraying results of operations until such sick pay is actually paid. In addition, if a company accrues expenses for compensated absences before such expenses are actually deductible for federal income tax purposes, then an exception to the flow-through accounting requirement in Section 3(h) is required. In such a case, a normalized tax accounting treatment will be required.

(j) No depreciation expense will be allowed for ratemaking purposes on amounts included in Account 2002-Property Held for Future Telecommunications Use. If a company records depreciation on amounts in this account, it shall record the jurisdictional difference in a separate subaccount of the designated jurisdictional differences accounts.

(k) Any property acquired from a non-affiliate shall be recorded at its net book value at the time of the transfer. If the company wishes to record the acquisition at its acquisition cost rather than its net book value, it shall first seek approval for such accounting, providing such detail as the commission may require. If there is a jurisdictional difference in recording the cost of an acquisition, any such difference shall be recorded in a separate subaccount of the designated jurisdictional differences accounts.

(1) Amounts booked to Account 2005—Telecommunications Plant Adjustment, shall be treated as non-operating investment, and shall not be included in any rate base account without the expressed permission of the Commission. Unless an alternate treatment has been authorized by the Commission, any amortization taken on amounts in Account 2005 will be treated as though charged to Account 7360-Other Non-operating Income, or other non-operating accounts as

required.

(m) If a company is allowed to convert to a GAAP accounting treatment of an item, or allowed other accounting changes which call for the accrual of expenses before such expenses are deductible for federal income tax purposes, an exception to the flow-through accounting requirement in Section 3(h) is required. In such event, a normalized tax accounting treatment will be required.

(4) The annual report form (((FCC Form *M*))) promulgated by the Federal Communications Commission (((FCC))) is hereby adopted for purposes of annually reporting to this commission by all telecommunications companies. Companies may also be required to include certain supplemental information in the annual report, such as the status of all jurisdictional differences accounts and subaccounts for the period. This supplemental information will be described in the mailing of the annual reports, or in other sections of this rule (see Section (7)).

((Any deviations from the Uniform System of Accounts and the annual report forms adopted and published by the FCC will only be accomplished after due notice and order by this commission.))

(5) The total company results of operations reported by each telecommunications company in its annual report shall agree with the results of operations shown on its books and records.

(6) All telecommunications companies having multi-state operations shall maintain records in such detail that the costs of property located and business done in this state in accordance with state geographic

boundaries can be readily ascertained.

(7) All telecommunications companies having multi-state operations shall report to this commission at least once each year, as a supplement to its annual report, such allocations between states as are requested by the commission from time to time for each utility. Any allocations required in developing results of operations for the state of Washington separately shall be accomplished on a basis acceptable to the commission. In these supplemental reports, adjustments will be made to incorporate Washington intrastate amounts in the jurisdictional differences accounts

(8) The annual budget of expenditures form for budgetary reporting by all telecommunications companies having \$25,000 or more in annual revenue will be published by this commission in accordance with chapter 480-140 WAC. ((Any change to these forms will only be ac-

complished after due notice and order of this commission.))

(9) The requirements of this section shall not apply to telecommunications companies classified by the commission as competitive, and subject to WAC 480-120-033.

(10) There shall be no departure from the foregoing except as specifically authorized by the commission.

Reviser's note: RCW 34.04.058 requires the use of underlining and deletion marks to indicate amendments to existing rules. The rule published above varies from its predecessor in certain respects not indicated by the use of these markings.

Reviser's note: The typographical errors in the above section occurred in the copy filed by the agency and appear herein pursuant to the requirements of RCW 34.08.040.

STATEMENT OF PURPOSE

Title: WAC 308-94-035 Snowmobile registration—Fee; 352-04-010 Meeting dates and locations; 352-32-010 Definitions; 352-32-165 Public assemblies, meetings; 352-32-130 Aircraft; and 352-32-25001 Recreation and conference center fees.

Description of Purpose: Establish fee level for snow-mobile registration; clarify annual commission meeting dates; define "public assembly"; specify exemptions to prohibitions on aircraft landings in parks; and update fee schedule for Fort Worden Recreation and Conference Center.

Statutory Authority: RCW 46.10.040, 43.51.040, 43.51.060 and 42.30.070.

Summary of Rule: WAC 308-94-035 establishes the fee for registration of snowmobiles at \$12.50 annually; 352-04-010 eliminates the requirement that commission

meetings be held on the third Friday of the month; 352–32–010 defines "public assembly" to include, among other elements, a gathering of more than 100 persons; 352–32–165 clarifies references to public gatherings for consistency; 352–32–130 authorizes landings and take-offs of aircraft from state park grounds only for search and rescue, fire control, law enforcement, or where authorized by the director for agency purposes; and 352–32–25001 establishes fees for use of facilities at Fort Worden State Park.

Reasons Supporting Proposed Action: WAC 308-94-035, recent legislation authorized the establishment of registration fees in WAC; 352-04-010, the assistant attorney general recently indicated that agency rules need not specify that commission meetings be held the third Friday of months in which meetings are held; 352-32-010, clarifies the public assembly section to apply only to groups over 100, not to any group of any size. This makes the section more useful for agency operational purposes, and does not require public assembly procedures for those groups requiring no particular special attention; 352-32-165, eliminates duplicative language which is unneeded with adoption of WAC 352-32-010; 352-32-130, allows aircraft landings in appropriate circumstances, emergency response needs and agency operational or administrative needs require landings of aircraft in specified circumstances; and 352-32-25001, adjusts fees for facility use at Fort Worden, consistent with increasing facility operating expenses and general inflation impacts.

Agency Personnel Responsible for Drafting: Mike Reed, Executive Assistant, James Horan, Winter Recreation Administrator, and Rex Derr, Programs Management Chief, 7150 Cleanwater Lane, Olympia, WA 98504, 753–5759; Implementation and Enforcement: James Horan, Winter Recreation Administrator, Lynn Genasci, Assistant Director, Operations, and Edward T. Luders, Chairman, Washington State Parks and Recreation Commission, 7150 Cleanwater Lane, Olympia, WA 98504.

(2) An application for such a permit may be submitted on such forms as may be provided by the commission, or in any written form so long as the permit application sets forth the following:

(a) Name, address and phone number of the applicant;

- (b) Date, time, duration, nature and place of the proposed event, including a description or schedule of events and activities;
- (c) Estimate of the number of persons expected to attend including the basis for the estimate;
- (d) Special equipment, including temporary structures such as speakers' stands, platforms, lecterns, chairs, benches or the like, and any sound amplification equipment to be used in connection with the event:
- (e) Special facilities, including emergency first aid, additional sanitation and refuse collection facilities, to be used in connection with the event:
 - (f) Crowd control to be provided by the event sponsor;

(g) Designation of a responsible contact individual with whom park officials may coordinate event activities, plans and preparations.

(3) The equipment and facilities referenced in subsection (2)(d) and (e), of this section, are to be provided by the event sponsor, unless other mutually satisfactory arrangements are made to use locally available commission owned equipment and facilities.

(4) The applicant must supply satisfactory evidence of arrangements for such equipment, facilities, and crowd control.

(5) The applicant must submit a completed environmental checklist along with the application. Environmental checklists are available at libraries, city planning offices, state parks, and similar outlets. Upon request, the agency will assist the applicant in completing the environmental checklist.

(6) It is recommended that permit applications be submitted at least fifteen days in advance of the proposed event so that the information supplied in the application may be verified and so that the agency can notify and coordinate action with officials of other jurisdictions and agencies responsible for health, safety and welfare.

(7) The permit application must be submitted along with a tendollar nonrefundable permit fee to the director of the Washington State Parks and Recreation Commission, 7150 Cleanwater Lane, Olympia, Washington 98504. The director, or his or her designee, may issue a permit consistent with the application, or otherwise modified in a manner which is acceptable to the applicant. The director will issue a permit on proper application unless:

(a) A prior application for the same time and place has been made which has been or will be granted; or

(b) The event will present a clear and present danger to the public health or safety; or

(c) The event is of such nature or duration that it cannot reasonably be accommodated in the particular park area applied for. In considering this, the director shall take into account the potential for significant environmental impact.

(8) All permit applications shall be deemed granted if not denied or otherwise conditioned or limited as herein specified, and the applicant advised of such action by written notification mailed, first-class postage prepaid, within ten days of receipt of the application. The granting of this permit does not exempt the applicant from complying with other state, county or local permit requirements nor does it excuse compliance with the state environmental policy act, where applicable. A threshold determination will be made by the agency to determine potential environmental impact. Applicants should be aware that timelines may exist under the state environmental policy act and implementing regulations which are independent of this permit requirement.

(9) All permit denials will be in writing, will contain a statement of the specific reasons for the denial, and will advise the applicants of the right to request judicial review of the denial as provided in subsection (11) of this section.

(10) A permit issued by the director may contain such conditions as are reasonably consistent with protection and use of the park area for the purposes for which it is maintained. It may also contain reasonable limitations on the time and area within which the event is permitted.

(11) Applicants whose permit application is denied may in writing request that the commission seek judicial review of the denial, in which event the commission shall timely seek a declaratory judgment pursuant to the Uniform Declaratory Judgment Act, chapter 7.24 RCW, and Superior Court Rule 57, in the superior court for Thurston County. Such requests shall be mailed, or otherwise delivered to the Director, Washington State Parks and Recreation Commission, 7150 Cleanwater Lane, Olympia, Washington 98504.

NEW SECTION

WAC 250-65-010 PURPOSE. The purpose of these regulations is to implement the provisions of SHB 857, Chapter 437, Laws of 1987, the Future Teachers Conditional Scholarship program. The program was created to encourage and recruit students who have distinguished themselves through outstanding academic achievement and students who can act as role models for children, including those from targeted ethnic minorities, to enter the teaching profession in the public school system of the state of Washington.

NEW SECTION

WAC 250-65-020 PROGRAM ADMINISTRATION. The Higher Education Coordinating Board is charged with the administration of the Future Teacher Conditional Scholarship Program. When a responsibility of the Board is referenced in these regulations, the authority needed to discharge that responsibility lies with the Executive Director or his or her designee.

In administering the program, the board shall have the following powers and duties:

(1) Establish a planning committee to develop criteria for the screening and selection of recipients of the conditional scholarships.

- (2) Select students to receive conditional scholarships, with the assistance of a screening committee composed of teachers and leaders in government, business, and education.
 - (3) Adopt necessary rules and guidelines.
 - (4) Publicize the program.

(2) "Eligible student" means a student who:

(a) is registered for a minimum of 10 credit hours or the equivalent.

(i) Calculation of Equivalency. In recognition of the fact that participating institutions have different academic calendars and apply different full-time enrollment definitions, the ten credit hour equivalent standard is defined as follows: as ten credit hours is 5/6's (10/12) of the minimum twelve credit hours required for full time undergraduate enrollment, a course load that by institutional standard is the equivalent of 5/6's of a minimum full time course load satisfies the threshold course load requirement of the Future Teacher Conditional Scholarship program.

(b) demonstrates achievement of at least a 3.30 grade point average for students entering an eligible institution of higher education directly from high school or who maintains at least a 3.00 grade point average or the equivalent for each academic year at an eligible institution;

(c) is a resident student of the state of Washington for tuition purposes;

(d) is maintaining satisfactory progress as determined by the institution the student is attending;

(e) has declared an intention to complete an approved preparation program leading to initial teacher certification or required for earning an additional endorsement, or college or university graduate who is registered for at least ten credit hours or the equivalent and is seeking an additional teaching endorsement or initial teaching certification.

(3) "Participant" means an eligible student who has received a con-

ditional scholarship.

(4) "Targeted ethnic minority" means a group of Americans with a common ethnic or racial heritage selected by the board for program consideration due to societal concerns such as high dropout rates or low rates of college participation by members of the group.

(5) "Needy student" shall mean a post high school student of an institution of higher learning who demonstrates to the board the financial inability, either through the student's parents, family and/or personally, to meet the total cost of board, room, books, and tuition and incidental fees for any semester or quarter.

NEW SECTION

WAC 250-65-040 CONTROL OF FUNDS. The higher education coordinating board may award conditional scholarships to eligible students from the funds appropriated to the board for this purpose, or from any private donations, or any funds given to the board for this program.

(1) Scholarship amounts:

(a) The amount of the conditional scholarship awarded an individual shall not exceed three thousand dollars per academic year. Students are eligible to receive conditional scholarships for a maximum of five years. The total amount of such scholarships to an eligible student shall not exceed fifteen thousand dollars (\$15,000). The duration of service obligation does not vary with the value of the scholarship(s).

(2) Repayment terms:

(a) Participants in the conditional scholarship program incur an obligation to repay the conditional scholarship, with interest, unless they teach for ten years in the public schools of the state of Washington, under rules adopted by the board.

(b) The terms of the repayment, including deferral of the interest, shall be consistent with the terms of the federal guaranteed loan program.

(c) The period for repayment shall be ten years, with payments accruing quarterly commencing nine months from the date the participant completes or discontinues the course of study.

(d) The entire principal and interest of each payment shall be forgiven for each payment period in which the participant teaches in a public school until the entire repayment obligation is satisfied or the borrower ceases to teach at a public school in this state. Should the participant cease to teach at a public school in this state before the participant's repayment obligation is completed, payments on the unsatisfied portion of the principal and interest shall begin the next payment period and continue until the remainder of the participant's repayment obligation is satisfied.

(3) Collection of repayments:

(a) The board is responsible for collection of repayments made and shall exercise due diligence in such collection, maintaining all necessary records to ensure that maximum repayments are made.

(b) The board is responsible to forgive all or parts of such repayments under the criteria established by the board and shall maintain

all necessary records of forgiven payments.

(4) Receipts:

(a) Receipts from the payment of the principal or interest or any other subsidies to which the board as administrator is entitled, which are paid by or on behalf of participants under this section, shall be deposited with the board and shall be used to cover the costs of granting the conditional scholarships, maintaining necessary records and making collections. The board shall maintain accurate records of these costs, and all receipts beyond those necessary to pay such costs shall be used to grant conditional scholarships to eligible students.

NEW SECTION

WAC 250-65-050 PARTICIPANT AGREEMENT WITH THE BOARD. As part of the application procedure, each participant shall submit a signed agreement between the higher education coordinating board and the participant which serves as the legal document verifying the student's understanding of the obligation to repay the scholarship if teaching service is not fulfilled. Participants agree to teach for ten years in the public schools of the state of Washington and to provide evidence of teaching service as required by the board. Verification of employment from a school district will be required for a participant to receive credit for teaching service during the repayment period.

(1) Non-compliance with agreement terms. A participant who ceases to pursue a course of study leading to teacher certification or who is not in compliance with the terms of the agreement with the board shall repay the amount of scholarship received, plus interest, according to the terms of the agreement signed by the student. Repayment shall be

made over a ten year period.

NEW SECTION

WAC 250-65-060 APPEAL PROCESS. If a participant wishes to appeal any determination of eligibility for a scholarship, satisfactory resolution shall be attempted by the board staff. STATEMENT OF PURPOSE

Title and Number of Rule: Chapter 296–104 WAC, Board of Boiler Rules—Substantive, which includes WAC 296–104–010(25) Definition of internal inspection; 296–104–220 Inspection of systems—Nonstandard second hand boiler or unfired pressure vessels; 296–104–265 Inspection of systems—Low water cutoff and water feeding devices; and 296–104–800 Inspection of systems subject to radioactivity.

Statutory Authority: Chapter 70.79 RCW.

Specific Statutes that Rules are Intended to Implement: Chapter 70.79 RCW.

Summary of the Rules: WAC 296-104-010(25) defines internal inspection and is being expanded to ultrasonic thickness measurements; 296-104-220 is an editorial change, eliminating a comma for better clarity; 296-104-265 is expanded to include controls specified in the Uniform Mechanical Code; and 296-104-800 will allow substitution of volumetric nondestructive examination for internal inspection for radioactively contaminated pressure vessels as a personnel safety measure.

Reasons Supporting the Proposed Rules: WAC 296–104–010(25) makes use of modern technology which allows volumetric inspection without shutdown; 296–104–220 is editorial only; 296–104–265 expands a rather loosely written rule to include safety controls not previously specified, but contained in national standard; and

296-104-800 gives nuclear industry the ability to perform required inspections while maintaining safe exposure levels for personnel.

Agency Person Responsible for Drafting, Implementation and Enforcement of the Rules: George E. Black, Chief Boiler Inspector, 805 Plum Street S.E., P.O. Box 9004, Olympia, Washington 98504-9004, phone (206) 586-0217.

Name of the Person or Organization Whether Private, Public or Governmental that is Proposing the Rules: Department of Labor and Industries.

Agency Comments or Recommendations, if any, Regarding Statutory Language, Implementation and Fiscal Matters Pertaining to the Rules: None.

The rules are not necessary to comply with a federal law or a federal or state court decision.

Any Other Information that may be of Assistance in Identifying the Rules [or] Their Purpose: None.

A small business impact statement is not required since these rules do not impose any fiscal requirements.

Designs embodying a float and float bowl shall have a vertical straight-away valve drain pipe at the lowest point in the water equalizing pipe connection by which the bowl and equalizing pipe can be flushed and the device tested. Immersion units shall be designed so that they may be readily tested at frequent intervals. All boilers newly installed after June 1989 that are automatically fired low pressure steam heating boilers, small power boilers, and power steam boilers without a constant attendant who has no other duties shall be equipped with two high steam pressure limit controls, one of which shall be provided with a manual reset on the control with the highest setting, and two low-water fuel cut-offs, one of which shall be provided with a manual reset device and independent of the feed water controller. Coil type flash steam boilers may use two high-temperature limit controls, one of which shall be manually reset in the hot water coil section of the boiler instead of the low-water fuel cut-off. Control and limit devices shall be independently connected and electrically wired in series.

All automatically fired hot water supply, low-pressure hot water heating boilers, and power hot water boilers shall be equipped with two high-temperature limit controls, one of which shall be provided with a manual reset on the control with the highest setting, and one low-water fuel cut-off with a manual reset and independent of the feed water controller. STATEMENT OF PURPOSE

This statement is filed pursuant to RCW 34.04.045. Amend WAC 261-40-150 Methodology and criteria for approval, modification, or disapproval of annual budget submittal and rates, rate schedules, other charges and changes therein.

Purpose of These Rule Changes: To delete budget review methodology and criteria for hospital fiscal years beginning in 1986; to amend budget review methodology and criteria for hospital fiscal years beginning in 1987; and to adopt budget review methodology and criteria for hospital fiscal years beginning in 1988.

Statutory Authority: RCW 70.39.180.

Summary of Rule Changes and Statement of Reason Supporting the Proposed Action: Budget review methodology and criteria for fiscal years beginning in 1986, found in WAC 261-40-150, are no longer effective, except for the conformance methodology, and should be deleted from the rules. The conformance methodology applying to budget years beginning on or before 1986 has been moved to WAC 261-40-150 (6)(a). Budget review methodology and criteria for fiscal years beginning in 1987, found in WAC 261-40-150, have not been changed except for the addition of conformance methodology for budget years beginning on or before 1986 and minor editing and renumbering where appropriate. Budget review methodology and criteria for fiscal years beginning on or after January 1, 1988, have been added to WAC 261-40-150. The major changes from the rules and regulations which were used for fiscal years beginning in 1987 are as follows: The commission may compare certain rural hospitals with Peer Groups B or D if it deems appropriate (WAC 261-40-150 (3)(b)). A description of the peer grouping process has been included (WAC 261-40-150 (5)(a)). Adjusted case-mix value units for each hospital, which were used in developing the target, will be used in evaluating the reasonableness of each hospital's aggregate volumes (WAC 261-40-150 (5)(b)). The calculation of the base line net patient services revenue for adjusted case-mix value unit has been amended (WAC 261-40-150 (5)(c)(i)). The methodology for exempting Peer Group A hospitals from the principal screen review is described (WAC 261-40-150 (5)(c)(iv)). The capital allowance methodology for notfor-profit hospitals has been modified to delete the first stage of the blended average of each hospital's average interest rate on long-term debt and the rate of return on equity-financed net property, plant and equipment because it is no longer applicable (WAC 261-40-150 (5)(e)(i)(B)(II)). The rules regarding working capital have been amended to permit the commission to allow interest on borrowed working capital in certain instances (WAC 261-40-150 (5)(e)(i)(C)(II)). The capital allowance for investor-owned hospitals has been changed to a rate of return based upon the capital asset pricing model (CAPM) ex ante methodology (WAC 261-40-150 (5)(e)(ii)). The rules specify that deductions from revenue and capital allowance must be allocated as a constant percentage of operating expenses and cross subsidization cannot exceed +- 5 percent unless approved by the commission (WAC 261-40-150 (5)(g)(ii)). The submittal of revised rates following issuance of the decision and order have been clarified (WAC 261-40-150 (5)(g)(iv)).

Agency Personnel Responsible for Drafting, Implementation and Enforcement of These Rules: Maurice A. Click, Executive Director, and David B. Smith, Deputy Director, Washington State Hospital Commission, 206 Evergreen Plaza Building, 711 South Capital Way, Mailstop FJ-21, Olympia, Washington 98504, (206) 753-1990.

These rules are not necessary as a result of federal law or a federal or state court decision.

Pursuant to RCW 19.85.040, the Hospital Commission submits the following small business economic impact statement. These proposed amendments retain provisions for alternative systems of financial reporting and modifications of the uniform reporting system which provide specialized and reduced reporting requirements for smaller hospitals. The rules also provide for less rigorous budget review for those rural hospitals classified in Peer Group A.

AMENDATORY SECTION (Amending Order 86-04, Resolution No. 86-04, filed 7/11/86)

WAC 261-40-150 METHODOLOGY AND CRITERIA FOR APPROVAL, MODIFICATION, OR DISAPPROVAL OF ANNUAL BUDGET SUBMITTAL AND RATES, RATE SCHEDULES, OTHER CHARGES, AND CHANGES THEREIN. The following methodology and criteria shall be utilized by the commission in reviewing and acting on annual budget submittals. The related importance of each criterion, and the extent to which justification for variance from the methodology and criteria is accepted, is a matter of commission discretion:

- ((The following is effective for hospital fiscal years beginning in 1986:
- (1) Whether the hospital's annual budget submittal and the rates, rate schedules, other charges, and changes therein:
- (a) Are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the hospital are reasonably related to the total services offered by that hospital;
- (b) Are such that the hospital's costs do not exceed those that are necessary for a prudently and reasonably managed hospital;
- (c) Are such that the hospital's aggregate revenues as expressed by rates are reasonably related to the hospital's aggregate costs;
- (d) Are such that rates are set equitably among all purchasers or classes of purchasers of services without undue discrimination or preference.
- (2) Whether the commission action will permit any hospital to render necessary, effective and efficient service in the public interest.
- (3) Whether the commission action will assure access to necessary, effective, economically viable and efficient hospital health care capability throughout the state, rather than the solvency or profitability of any individual hospital except where the insolvency of a hospital would seriously threaten the access of the rural public to basic health care
- (4) Whether the appropriate area-wide and state comprehensive health planning agencies have recommended approval, modification, or disapproval of the annual budget submittal, or the rates, rate schedules, other charges, or changes therein.
- (5) Whether the proposed budget and the projected revenues and expenses would result in the rate structure most reasonable under the circumstances. The following shall be considered by the commission in making that determination:
- (a) The commission shall determine whether the hospital's requested utilization statistics are reasonably attainable, based upon:
- (i) Historical admission trends, including a revised current year estimate derived from seasonally-adjusted quarterly report information;
- (ii) Historical trends of outpatient volumes as measured by inflation-adjusted outpatient revenue and outpatient equivalents of admissions;
 - (iii) Historical trends of the average length of stay; and

- (iv) Such other information as the commission may determine is appropriate as a basis for deviating from measures based upon historical trends including; but not limited to:
- (A) Revisions necessary to maintain compliance with the commission's Accounting and Reporting Manual for Hospitals pursuant to WAC 261-20-030:
- (B) Negotiated rate agreements that guarantee additional volumes related to a purchaser of hospital health care services;
- (C) The implementation or deletion of services or programs for which certificate of need approval has been obtained, if required;
- (D) The opening of new health care service-related capacity for which certificate of need approval has been obtained, if required; and
- (E) Other considerations presented by the hospital and determined to be appropriate by the commission:
- (b) The commission shall utilize a principal screen to compare the hospital's requested net patient services revenue (total rate setting revenue less deductions from revenue) per adjusted admission to the hospital's target net patient services revenue per adjusted admission as calculated in item (i) below and modified by item (ii) below:
- (i) Each hospital's target net patient services revenue per adjusted admission shall be calculated by applying to the individual hospital the same methodology utilized by the commission in establishing the volume and operating expense components of the target dollar amount of total state-wide hospital revenue adopted by the commission in accordance with RCW 70.39.150(6), and adding a capital allowance component as calculated according to (d)(i)(B) and (C) of this subsection; provided that, the additional considerations provided for in (d)(i)(C)(I) and (II) of this subsection shall not be included in the capital allowance component of the target net patient services revenue per adjusted admission for purposes of this item.
- (ii) The target net patient services revenue per adjusted admission as calculated in item (i) above shall be modified as follows, if applicable:
- (A) For each hospital whose percentage increase in target net patient services revenue per adjusted admission over the current year approved level exceeds the peer group median of the target rates of increase, the hospital's target net patient services revenue per adjusted admission shall be reduced to reflect the peer group median target rate of increase.
- (B) For each hospital whose target net patient services revenue per adjusted admission exceeds the peer group median of the target, the hospital's target shall be reduced by one-half of one percent for each one percent variance above the peer group median of the target.
- (iii) If, after volume adjusting the revised target and the budget request to reasonably attainable levels of adjusted admissions, the requested net patient services revenue per adjusted admission does not exceed the revised target, the operating expense and capital allowance sections of the hospital's annual budget submittal will not be subject to further review provided that the resulting rates meet the criteria of subsection (5)(f), (6), and (7) of this section.
- (iv) If, after volume adjusting the revised target and the budget request to reasonably attainable levels of adjusted admissions, the requested net patient services revenue per adjusted admission exceeds the revised target, further review of the components of operating expense and capital allowance will be conducted.
- (c) The commission shall determine whether the hospital's requested operating expenses are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the services are reasonably related to the total services offered by that hospital and are such that the hospital's costs do not exceed those that are necessary for a reasonably and prudently managed hospital, based upon:
- (i) Adjusting the requested level of operating expenses to reflect the adjusted admissions as determined according to (a) of this subsection, utilizing the variable cost factors described in subsection (6) of this section;
- (ii) Applying national hospital market basket inflation forecasts to operating expenses by natural classification. National inflation forecasts will be modified to reflect regional or state-wide economic conditions, as appropriate;
- (iii) Such other information as the commission may determine is appropriate as a basis for deviating from the standard variable cost ratios specified in subsection (6) of this section or inflation forecasts. This information shall include but not be limited to:
- (A) Revisions necessary to comply with the commission's Accounting and Reporting Manual for Hospitals pursuant to WAC 261-20-030;

- (B) Reasonable operating expenses related to implementation or deletion of services or programs for which certificate of need approval has been obtained, if required;
- (C) Reasonable operating expenses related to expansion or contraction of hospital capacity for which certificate of need approval has been obtained, if required,
- (D) Volume adjustments of a magnitude which render the standard variable cost factors described in subsection (6) of this section inappropriate; and
- (E) Other consideration presented by the hospital and determined to be appropriate by the commission.
- (d) The commission shall determine whether the hospital's requested capital allowance is appropriate based upon the following:
- (i) Capital allowance shall be computed as a return on net property, plant and equipment (property, plant and equipment less accumulated depreciation) used in hospital operations. Interest expense on long-term debt shall be deducted from the return on net property, plant and equipment.
- (A) The value for net property, plant and equipment shall be derived from the balances at the end of the hospital's current year, as approved by the commission, and the projected balances at the end of the budget year. An average shall be calculated. The average of the net property, plant and equipment shall be the base upon which the return shall be calculated.
- (1) Any capital expenditures contained in the projected balances at the end of the budget year which are subject to certificate of need approval will be excluded from the base until such time as the certificate of need has been issued by the department of social and health services.
- (II) Any assets contained in net property, plant and equipment that do not relate to hospital operations, as defined in the commission's Accounting and Reporting Manual for Hospitals, pursuant to WAC 261-20-030, will be excluded from the base.
- (B) A return on net property, plant and equipment for proprietary hospitals at the rate of twelve percent and for the not-for-profit hospitals at the rate of ten percent shall be presumed appropriate; however; the commission may vary from that rate, higher or lower, where appropriate. After computation of the return, allowable interest expense on long-term debt shall be deducted from the computed return.
- (C) Working capital increases, if requested, shall be added to the return on net property, plant and equipment for determination of the total capital allowance. Working capital increases up to twelve and one-half percent of the increase in net patient services revenue from the approved budget in the current year to the approved budget as determined by the commission in the requested year shall be presumed appropriate; however, the commission may vary from that allowance, higher or lower, where appropriate:
- (1) The commission may determine that a hospital in peer groups 1 or 2 is experiencing financial distress and may determine to vary from the allowance for working capital.
- (II) The commission may determine to allow additional working capital where the hospital can demonstrate to the commission's satisfaction that its payer mix would require additional funding of accounts receivable.
- (D) The commission may consider other elements in the determination of appropriate capital allowance for inclusion in total rate setting revenue. These considerations include, but are not limited to, the following elements:
- (1) Hospitals that have been undercapitalized as determined by the average age of plant to the state-wide average; the total turnover rate of assets, which include total operating revenue divided by total assets; and the fixed asset turnover rate, which includes total operating revenue divided by net fixed assets;
- (II) Whether that portion of debt principal payments which exceeds the total depreciation expense in the budget year should be allowed;
- (III) If the hospital has been approved for equity funding or accumulation of funds for a project in the future and its rates are at or below the median of its peer group and the equity funding is consistent with the hospital's long-range plan and financing plan which have been approved by the hospital's governing body, and
- (IV) If the hospital has an approved certificate of need and related financing consistent with the approved certificate of need and the impact on rates of the additional funding is determined not to be excessive by the commission.
 - (e) Whether the budgeted deductions from revenue are appropriate:

- (i) Contractual adjustments related to governmental programs, such as titles V, XVIII, XIX of the Social Security Act, Department of Labor and Industries, Veteran's Administration and Indian Health Service, are allowable.
- (ii) Contractual adjustments related to bank card discounts, selfinsured workers' compensation, negotiated rates and all other nongovernmental-sponsored patients are not allowable as deductions from revenue for rate setting purposes;
- (iii) Bad debts and charity will be trended as a percentage of total rate setting revenue over time and any significant changes will require justification:
- (iv) Administrative adjustments exceeding one-tenth of one percent of total rate setting revenue will require justification;
- (v) Deductions from revenue may be recomputed based on determinations in all other areas of the budget.
- (f) Whether the reviews performed in accordance with (a), (b), (c), (d) and (e) of this subsection result in rates, rate schedules, other charges, and changes therein which are the most reasonable under the circumstances.
- (i) Rate setting revenue per adjusted admission should not exceed the 70th percentile of the peer group revenue screens unless the hospital's intensity exceeds the 70th percentile as measured by:
 - (A) Ratio of intensive care days to total days; and
 - (B) Radiology relative value units per adjusted admission; and
 - (C) Laboratory billable workload units per adjusted admission; and
 - (D) Surgery minutes per adjusted admission; or
- (E) The hospital's adjusted case mix index derived from the commission hospital abstract reporting system:
- (ii) The commission may consider any other information it determines is appropriate as the basis for deviating from these criteria including the relative level of deductions from revenue experienced by the hospitals;
- (iii) If the rates are not approved as requested, the hospital must submit revised rates to the commission within twenty days of the date of service of the decision and order.
- (6) Whether the rates implemented and revenues collected by the hospital in previous budget years conformed to the applicable commission determinations for such years. Conformance will be determined by comparing, at the end of the budget year, actual revenues for the budget year to commission—approved revenues, on the basis of either the aggregate rate per adjusted patient day, or the revenues for individual revenue centers, as either may be modified, where appropriate, for volume variance between budgeted and actual levels, such comparison shall be made using actual, rather than budgeted, deductions from revenue.

The approved capital allowance shall be considered a fixed cost when considering year-end conformance. Only that portion of total costs per patient day designated as variable according to the following schedule will be adjusted for volume variance:

Peer groups 1 and 2 and specialty hospitals having fewer than fifty beds; fixed costs - eighty percent, variable costs - twenty percent

Peer groups 3 and 4 and specialty hospitals having fifty or more beds; fixed costs - seventy percent, variable costs - thirty percent

Peer groups 5 and 6 hospitals; fixed costs - sixty percent, variable costs - forty percent

Alternatively, the hospital may submit suggested ratios of fixed costs to variable costs, either in the aggregate or by revenue center. Upon approval by the commission, such approved ratios will be used only prospectively to determine allowable revenue variance due to volume changes.

The hospital may submit any justifying information to explain deviations/variances from approved revenues.

- (7) Whether the hospital or its medical staff either adopts or maintains admission practices or policies which result in:
- (a) A significant reduction in the proportion of patients who have no third-party coverage or who are unable to pay for hospital services;
- (b) A significant reduction in the proportion of individuals admitted for inpatient hospital services for which payment is or is likely to be less than the anticipated charges for or costs of such services;
- (c) The refusal to admit patients who would be expected to require unusually costly or prolonged treatment for reasons other than those related to the appropriateness of the care available at the hospital.))

The following is effective for hospital fiscal years beginning ((on or after January 1,)) in 1987.

- (1) Whether the hospital's annual budget submittal and the rates, rate schedules, other charges, and changes therein:
- (a) Are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the hospital are reasonably related to the total services offered by that hospital;
- (b) Are such that the hospital's costs do not exceed those that are necessary for a prudently and reasonably managed hospital;
- (c) Are such that the hospital's aggregate revenues as expressed by rates are reasonably related to the hospital's aggregate costs;
- (d) Are such that rates are set equitably among all purchasers or classes of purchasers of services without undue discrimination or preference.
- (2) Whether the commission action will permit the hospital to render necessary, effective and efficient service in the public interest.
- (3) Whether the commission action will assure access to necessary, effective, economically viable and efficient hospital health care capability throughout the state, rather than the solvency or profitability of any individual hospital except where the insolvency of a hospital would seriously threaten the access of the rural public to basic health care services.
- (a) Rural includes all areas of the state with the following exceptions:
- (i) The entire counties of Snohomish (including Camano Island), King, Kitsap, Pierce, Thurston, Clark, and Spokane;
- (ii) Areas within a twenty-mile radius of an urban area exceeding thirty thousand population; and
- (iii) Those cities or city-clusters located in rural counties but which for all practical purposes are urban. These areas are Bellingham, Aberdeen-Hoquiam, Longview-Kelso, Wenatchee, Yakima, Sunnyside, Richland-Kennewick-Pasco, and Walla Walla.
- (4) Whether the appropriate area—wide and state comprehensive health planning agencies have recommended approval, modification, or disapproval of the annual budget submittal, or the rates, rate schedules, other charges, or changes therein.
- (5) Whether the proposed budget and the projected revenues and expenses would result in the rate structure most reasonable under the circumstances. The following shall be considered by the commission in making that determination:
- (a) The commission shall determine whether the hospital's requested utilization statistics are reasonably attainable, based upon:
- (i) Historical admission trends, including a revised current year estimate derived from seasonally-adjusted quarterly report information;
- (ii) Historical trends of outpatient volumes as measured by inflation-adjusted outpatient revenue and outpatient equivalents of admissions:
- (iii) Historical trends of the average length of stay;
- (iv) Historical case mix indices as obtained from the Commission Hospital Abstract Reporting System; and
- (v) Such other information as the commission may determine is appropriate as a basis for deviating from measures based upon historical trends including, but not limited to:
- (A) Revisions necessary to maintain compliance with the commission's Accounting and Reporting Manual for Hospitals pursuant to WAC 261-20-030;
- (B) Negotiated rate agreements that guarantee additional volumes related to a purchaser of hospital health care services;
- (C) The implementation or deletion of services or programs for which certificate of need approval has been obtained, if required; and
- (D) Other considerations presented by the hospital or other interested persons and determined to be appropriate by the commission.
- (b) The commission shall utilize a principal screen to compare the hospital's requested net patient services revenue (total rate setting revenue less deductions from revenue) per adjusted case mix value unit to the hospital's baseline net patient services revenue per adjusted case mix value unit as calculated in item (i) below and modified by item (ii) below:
- (i) Each hospital's baseline net patient services revenue per adjusted case mix value unit shall be calculated by applying to the individual hospital the same methodology utilized by the commission in establishing the volume, operating expense, and capital allowance components of the allocated target dollar amount of total state-wide hospital revenue adopted by the commission in accordance with RCW 70.39.150(6).

- (ii) If, after volume adjusting the revised baseline and the budget request to reasonably attainable levels of adjusted case mix value units, the requested net patient services revenue per adjusted case mix value unit does not exceed the revised baseline, the operating expense and capital allowance sections of the hospital's annual budget submittal will not be subject to further review provided that the resulting rates meet the criteria of subsection (5)(f), (6), and (7) of this section.
- (iii) If, after volume adjusting the revised baseline and the budget request to reasonably attainable levels of adjusted case mix value units, the requested net patient services revenue per adjusted case mix value unit exceeds the revised baseline, further review of the components of operating expense and capital allowance will be conducted.
- (c) The Commission shall determine whether the hospital's requested operating expenses are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the services are reasonably related to the total services offered by that hospital and are such that the hospital's costs do not exceed those that are necessary for a reasonably and prudently managed hospital, based upon:
- (i) Adjusting the requested level of operating expenses to reflect the adjusted case mix value units as determined according to (a) of this subsection, utilizing the variable cost factors described in subsection (6) of this section;
- (ii) Applying national hospital market basket inflation forecasts to operating expenses by natural classification. National inflation forecasts will be modified to reflect regional or state-wide economic conditions, as appropriate;
- (iii) Such other information as the commission may determine is appropriate as a basis for deviating from the standard variable cost ratios specified in subsection (6) of this section or inflation forecasts. This information shall include but not be limited to:
- (A) Revisions necessary to comply with the commission's Accounting and Reporting Manual for Hospitals pursuant to WAC 261-20-030:
- (B) Reasonable operating expenses related to implementation or deletion of services or programs for which certificate of need approval has been obtained, if required;
- (C) Reasonable operating expenses related to expansion or contraction of hospital capacity for which certificate of need approval has been obtained, if required;
- (D) Volume adjustments of a magnitude which render the standard variable cost factors described in subsection (6) of this section inappropriate; and
- (E) Other consideration presented by the hospital and determined to be appropriate by the commission.
- (d) The commission shall determine whether the hospital's requested capital allowance is appropriate based upon the following:
- (i) Capital allowance includes a return on net property, plant and equipment (property, plant and equipment less accumulated depreciation) used in hospital operations, an allowance for working capital, and other considerations as determined to be appropriate by the commission.
- (A) The value for net property, plant and equipment shall be derived from the balances at the end of the hospital's current year, as approved by the commission, and the projected balances at the end of the budget year. An average shall be calculated. The average of the net property, plant and equipment shall be the base upon which the return shall be calculated.
- (I) Any capital expenditures contained in the projected balances at the end of the budget year which are subject to certificate of need approval will be excluded from the base until such time as the certificate of need has been issued by the department of social and health services;
- (II) Any assets contained in net property, plant and equipment that do not relate to hospital operations, as defined in the commission's Accounting and Reporting Manual for Hospitals, pursuant to WAC 261–20–030, will be excluded from the base.
- (B) A return on net property, plant and equipment as determined in (I), (II), and (III) below shall be presumed appropriate; however, the commission may vary from that rate, higher or lower, where appropriate.
- (1) The rate of return on equity financed net property, plant and equipment shall be calculated by averaging the reported interest rates on twenty-five-year "A" rated tax-exempt bonds as reported in each issue of Rate Controls from the three months ending on August 31 of each year.

(II) The rate of return on debt financed net property, plant and equipment shall be a blended average of each hospital's average interest rate on long-term debt and the rate of return on equity financed net property, plant and equipment. The blending schedule is as follows:

(aa) For hospital fiscal years beginning in 1987: Seventy-five percent - each hospital's average interest rate on long-term debt, twentyfive percent - rate of return on equity financed net property, plant and

equipment:

(bb) For hospital fiscal years beginning in 1988: Fifty percent - each hospital's average interest rate on long-term debt, fifty percent - rate of return on equity financed net property, plant and equipment;

(cc) For hospital fiscal years beginning in 1989: Twenty-five percent each hospital's average interest rate on long-term debt, seventy-five percent - rate of return on equity financed net property, plant and

equipment;

- (dd) For hospital fiscal years beginning in 1990 and each year thereafter: Zero percent - each hospital's average interest rate on long-term debt, one hundred percent - rate of return on equity financed net property, plant and equipment.
- (III) After computation of the return on net property, plant and equipment, allowable interest expense on long-term debt shall be deducted from the computed return.
- (C) Working capital increases, if requested, shall be added to the return on net property, plant and equipment for determination of the total capital allowance. Working capital increases up to thirteen and one-half percent of the increase in net patient services revenue from the approved budget in the current year to the approved budget as determined by the commission in the requested year shall be presumed appropriate; however, the commission may vary from that allowance, higher or lower, where appropriate.
- (I) The commission may determine that a hospital which is found essential to assure access of the rural public to basic health care services is experiencing financial distress and may determine to vary from the allowance for working capital.
- (II) The commission may determine to allow additional working capital where the hospital can demonstrate to the commission's satisfaction that its payer mix would require additional funding of accounts receivable.
- (D) The commission may consider other elements in the determination of appropriate capital allowance for inclusion in total rate setting revenue. These considerations include, but are not limited to, the following elements:
- (I) Hospitals that have been undercapitalized as determined by an average accounting age of property, plant and equipment which exceeds one hundred fifty percent of the state-wide average; and a total turnover rate of assets which exceeds the upper quartile of far west hospitals of the same bed size category as defined in the latest Hospital Industry Analysis Report of the healthcare financial management association or a fixed asset turnover rate which exceeds the upper quartile of far west hospitals of the same bed size category as defined in the latest Hospital Industry Analysis Report of the healthcare financial management association, provided that:
- (aa) The total level of capital allowance for undercapitalized hospitals should not exceed one hundred twenty-five percent of the baseline level; and
- (bb) The requested rate per adjusted admission, as revised to reflect the hospital's case mix index, does not exceed the peer group median; and
- (cc) The resulting increase in the rate per adjusted case mix value unit does not exceed one hundred twenty-five percent of the baseline median rate of increase.
- (II) Whether that portion of debt principal payments which exceeds the total depreciation expense in the budget year should be allowed;
- (III) If the hospital has been approved for equity funding or accumulation of funds for a project in the future and its rate per adjusted case mix value unit is at or below the median of its peer group, the proposed project is consistent with the hospital's long-range plan and financing plan which have been approved by the hospital's governing body, the proposed project is consistent with the health systems plan of the appropriate health systems agency, and any equity funding allowed in total rate setting revenue is maintained in a separate subaccount within board designated assets and cannot be used for any other purpose without prior approval of the commission; and
- (IV) If the hospital has an approved certificate of need and related financing consistent with the approved certificate of need and the impact on rates of the additional funding is determined not to be excessive by the commission.

- (e) Whether the budgeted deductions from revenue are appropriate:
- (i) Contractual adjustments related to governmental programs, such as Titles V, XVIII, XIX of the Social Security Act, Department of Labor and Industries, self-insured workers' compensation, Veteran's Administration, and Indian Health Service are allowable.
- (ii) Contractual adjustments related to bank card discounts, negotiated rates and all other nongovernmental-sponsored patients are not allowable as deductions from revenue for rate setting purposes;
- (iii) Bad debts and charity will be trended as a percentage of total rate setting revenue over time and any significant changes will require justification;
- (iv) Administrative adjustments exceeding one-tenth of one percent of total rate setting revenue will require justification;
- (v) Deductions from revenue may be recomputed based on determinations in all other areas of the budget.
- (f) Whether the reviews performed in accordance with (a), (b), (c), (d) and (e) of this subsection result in rates, rate schedules, other charges, and changes therein which are the most reasonable under the
- (i) Rate setting revenue per adjusted case mix value unit should not exceed the 70th percentile of the peer group revenue screens as adjusted for each hospital's case mix index unless the hospital demonstrates to the commission's satisfaction that the relatively high rates are acceptable.
- (ii) The commission may consider any other information it determines is appropriate as the basis for deviating from these criteria including the relative level of deductions from revenue experienced by the hospitals;
- (iii) If the rates are not approved as requested, the hospital must submit revised rates to the commission within twenty days of the date of service of the decision and order.
- (6) Whether the rates implemented and revenues collected by the hospital ((in previous budget years)) conform((ed)) to the applicable commission determinations ((for such years)).
- (a) For budget years beginning on or before 1986, conformance will be determined by comparing, at the end of the budget year, actual revenues for the budget year to commission-approved revenues, on the basis of either the aggregate rate per adjusted patient day, or the revenues for individual revenue centers, as either may be modified, where appropriate, for volume variance between budgeted and actual levels; such comparison shall be made using actual, rather than budgeted, deductions from revenue.

The approved capital allowance shall be considered a fixed cost when considering year-end conformance. Only that portion of total costs per patient day designated as variable according to the following schedule will be adjusted for volume variance:

Peer groups 1 and 2 and specialty hospitals having fewer than fifty beds; fixed costs - eighty percent, variable costs - twenty percent.

Peer groups 3 and 4 and speciality hospitals having fifty or more beds; fixed costs - seventy percent, variable costs - thirty percent.

Peer groups 5 and 6 hospitals; fixed costs - sixty percent, variable costs - forty percent.

Alternatively, the hospital may submit suggested ratios of fixed costs to variable costs, either in the aggregate or by revenue center. Upon approval by the commission, such approved ratios will be used only prospectively to determine allowable revenue variance due to volume changes.

The hospital may submit any justifying information to explain deviations/variances from approved revenues

- ((a)) (b) For budget year 1987, ((E)) conformance will be determined by comparing, at the end of the budget year, actual revenues for the budget year to commission-approved revenues, on the basis of the aggregate rate per adjusted case mix value unit. The revenues may be modified, where appropriate, for volume variance between budgeted and actual levels of adjusted case mix value units.
- (((b))) (i) Actual allowable, rather than budgeted, deductions from revenue will be used in the conformance calculation.
- (((c))) (ii) The approved capital allowance shall be considered a fixed cost when considering year-end conformance.
- (((d))) (iii) Only that portion of total operating costs designated as variable according to the following schedule will be adjusted for volume variance:
- (((i))) (A) Peer Group A and specialty hospitals having fewer than fifty beds; fixed costs - eighty percent, variable costs - twenty percent;
- (((ii))) (B) Peer Group B and specialty hospitals having from fifty to one hundred seventy-five beds; fixed costs - sixty-five percent, variable costs - thirty-five percent;

- (((iii))) (C) Peer Group C and specialty hospitals having more than one hundred seventy-five beds; fixed costs fifty percent, variable costs fifty percent.
- (((ex))) (iv) Alternatively, the hospital may submit suggested ratios of fixed costs to variable costs by natural classification of expense. Upon approval by the commission, such approved ratios will be used only prospectively to determine allowable operating expense variance due to volume changes.
- (((ff))) (v) The hospital may submit any proposed justifying information to explain deviations/variances from approved revenues.
- (((i))) (A) Any proposed justifying information must include at least the following supporting information:
- (((A))) (1) The exact nature and extent of the factors contributing to excess revenue:
- (((19))) (II) The date at which hospital management became aware of the factors contributing to excess revenue;
- (((C))) (III) The date at which hospital management increased rates above the allowable level taking into account volume changes and actual deductions from revenue;
- $(((\frac{D)}{D}))$ (IV) An explanation of efforts to reduce other components of the budget to offset the factors contributing to the excess revenues; and
- $(((\frac{E})))$ (V) An explanation of why the hospital did not seek a budget amendment.
- ((tii))) (B) In no event will increased operating expenses be accepted as justification if the volume adjusted allowable operating expenses equal or exceed the actual level.
- (((iii))) (C) In no event will proposed justifying information be accepted if the commission determines that the factors contributing to excess revenues could have been controlled by hospital management.
- (((iv))) (D) In no event will proposed justifying information be accepted if the commission determines that the factors contributing to excess revenues could have been anticipated by the hospital or could have been identified by the hospital in sufficient time to submit a budget amendment in accordance with WAC 261-20-045.
- (((v))) (E) In no event will capital allowance in excess of the approved level be accepted as justification.
- (((vi))) (F) Hospitals will be allowed to retain any actual capital allowance in excess of the approved level that results from cost effective practices as defined as, and measured by, actual operating expenses that are below the volume adjusted approved operating expenses.
- (((g))) (vi) Staff shall notify each hospital found to be out of conformance based on this subsection, and a hearing shall be conducted by the commission on conformance within sixty days. If the commission determines that a hospital's revenues have not conformed to the applicable determinations for that year, a decision and order will be issued reducing the hospital's current budget and rates by the amount that actual revenues exceed allowable revenues.
- (7) Whether the hospital or its medical staff either adopts or maintains admission practices or policies which result in:
- (a) A significant reduction in the proportion of patients who have no third-party coverage or who are unable to pay for hospital services;
- (b) A significant reduction in the proportion of individuals admitted for inpatient hospital services for which payment is or is likely to be less than the anticipated charges for or costs of such services;
- (c) The refusal to admit patients who would be expected to require unusually costly or prolonged treatment for reasons other than those related to the appropriateness of the care available at the hospital.
- The following is effective for hospital fiscal years beginning on or after January 1, 1988.
- (1) Whether the hospital's annual budget submittal and the rates, rate schedules, other charges, and changes therein:
- (a) Are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the hospital are reasonably related to the total services offered by that hospital;
- (b) Are such that the hospital's costs do not exceed those that are necessary for a prudently and reasonably managed hospital;
- (c) Are such that the hospital's aggregate revenues as expressed by rates are reasonably related to the hospital's aggregate costs; and
- (d) Are such that rates are set equitably among all purchasers or classes of purchasers of services without undue discrimination or preference.
- (2) Whether the commission action will permit the hospital to render necessary, effective and efficient service in the public interest.
- (3) Whether the commission action will assure access to necessary, effective, economically viable and efficient hospital health care capability throughout the state, rather than the solvency or profitability of

- any individual hospital except where the insolvency of a hospital would seriously threaten the access of the rural public to basic health care services.
- (a) Rural includes all areas of the state with the following exceptions:
- (i) The entire counties of Snohomish (including Camano Island), King, Kitsap, Pierce, Thurston, Clark, and Spokane;
- (ii) Areas within a twenty-mile radius of an urban area exceeding thirty thousand population; and
- (iii) Those cities or city-clusters located in rural counties but which for all practical purposes are urban. These areas are Bellingham, Aberdeen-Hoquiam, Longview-Kelso, Wenatchee, Yakima, Sunnyside, Richland-Kennewick-Pasco, and Walla Walla.
- (b) The Commission may, at its discretion, determine that individual hospitals located in areas meeting the aforementioned criteria should not be considered rural for purposes of conducting comparative budget reviews between hospitals. In such cases, the affected hospitals will be compared against those hospitals classified as either Peer Group B or Peer Group D for comparative purposes.
- (4) Whether the appropriate area-wide and state comprehensive health planning agencies have recommended approval, modification, or disapproval of the annual budget submittal, or the rates, rate schedules, other charges, or changes therein.
- (5) Whether the proposed budget and the projected revenues and expenses would result in the rate structure most reasonable under the circumstances. The following shall be considered by the commission in making that determination:
- (a) For purposes of conducting comparative budget review, the commission shall assign each hospital to a peer group, as follows:
- (i) Peer Group A those hospitals designated as rural in accordance with WAC 261-40-150 (3)(a);
- (ii) Peer Group B those hospitals not designated within Peer Groups A, C, or D;
- (iii) Peer Group C those hospitals with accredited graduate medical education programs, except those that are classified within Peer Group D; and
- (iv) Peer Group D those hospitals which the commission has determined exhibit unique characteristics that make comparative analysis inappropriate.
- (b) The commission shall determine whether the hospital's requested utilization statistics are reasonably attainable, based upon:
- (i) The adjusted case mix value units for each hospital which were used to develop the individual hospital's operating expense component of the target dollar amount of total state-wide hospital revenue; and
- (ii) Maintaining a reasonable relationship between the volumes of each hospital department with the adjusted case mix value units which were used to develop the individual hospital's operating expense component of the target dollar amount of total state-wide hospital revenue.
- (A) Deviations from the volume levels determined through these procedures will be taken into account in the computation of year-end conformance, as described in WAC 261-40-150(6).
- (c) The commission shall utilize a principal screen to compare the hospital's requested net patient services revenue (total rate setting revenue less deductions from revenue) per adjusted case mix value unit to the hospital's baseline net patient services revenue per adjusted case mix value unit as calculated in item (i) below and applied by items (ii), (iii), and (iv) below:
- (i) Each hospital's baseline net patient services revenue per adjusted case mix value unit shall be calculated as follows:
- (A) Baseline adjusted case mix value units shall be equal to the level utilized by the commission in establishing the individual hospital's operating expense component of the target dollar amount of total state—wide hospital revenue;
- (B) Baseline operating expenses shall be equal to ninety-five percent of the individual hospital's operating expense component of the target dollar amount of total state-wide hospital revenue; and
- (C) Baseline capital allowance shall be determined as an allocated amount of the capital allowance component of the target dollar amount of total state-wide hospital revenue. The allocation of the state-wide capital allowance component of the target dollar amount of total state-wide hospital revenue shall be calculated as follows:
- (1) Each hospital's 1987 baseline capital allowance will be divided by the sum of all hospitals' 1987 baseline capital allowances; and
- (II) The ratio resulting from (I) above shall be multiplied against ninety-five percent of the 1988 capital allowance component of the target dollar amount of total state-wide hospital revenue.

(ii) If, after volume adjusting the revised baseline and the budget request to reasonably attainable levels of adjusted case mix value units, the requested net patient services revenue per adjusted case mix value unit does not exceed the revised baseline, the operating expense and capital allowance sections of the hospital's annual budget submittal will not be subject to further review provided that the resulting rates meet the criteria of subsections (5)(g), (6), and (7) of this section.

(iii) If, after volume adjusting the revised baseline and the budget request to reasonably attainable levels of adjusted case mix value units, the requested net patient services revenue per adjusted case mix value unit exceeds the revised baseline, further review of the components of

operating expense and capital allowance will be conducted.

(iv) Peer Group A hospitals with requested net revenues per adjusted case mix value unit which are at or below the 70th percentile for their peer group, and which are increasing from the current year approved level at a percentage change which is at or below the 70th percentile rate of change for the peer group, shall be exempted from the principal screen review and the review of operating expenses and capital allowance, so long as the budgeted adjusted case mix value units appear to be reasonably attainable.

(d) The commission shall determine whether the hospital's requested operating expenses are such that the commission can assure all purchasers of that hospital's health care services that the total costs of the services are reasonably related to the total services offered by that hospital and are such that the hospital's costs do not exceed those that are necessary for a reasonably and prudently managed hospital, based

upon:

(i) Adjusting the requested level of operating expenses to reflect the adjusted case mix value units as determined according to (5)(b) of this section, utilizing the variable cost factors described in subsection (6) of this section:

(ii) Applying national hospital market basket inflation forecasts to operating expenses by natural classification. National inflation forecasts will be modified to reflect regional or state-wide economic condi-

tions, as appropriate; and

(iii) Such other information as the commission may determine is appropriate as a basis for deviating from the standard variable cost ratios specified in subsection (6) of this section or inflation forecasts. This information shall include but not be limited to:

(A) Revisions necessary to comply with the commission's "Accounting and Reporting Manual for Hospitals" pursuant to WAC 261-20-

030:

- (B) Reasonable operating expenses related to implementation or deletion of services or programs for which certificate of need approval has been obtained, if requested;
- (C) Reasonable operating expenses related to expansion or contraction of hospital capacity for which certificate of need approval has been obtained, if required;

(D) Volume adjustments of a magnitude which render the standard variable cost factors described in subsection (6) of this section inap-

propriate; and

(E) Other consideration presented by the hospital or other concerned persons and determined to be appropriate by the commission, including the impact that the acceptance of operating expense increases above the baseline level would have on the commission's ability to achieve total state—wide revenue that are within the target dollar amount of total state—wide hospital revenue as adopted by the commission in accordance with RCW 70.39.150(6), and comparative analysis of the hospital's operating expenses with hospitals within the same peer group.

(e) The commission shall determine whether the hospital's requested capital allowance is appropriate based upon the following:

- (i) Capital allowance for not-for profit hospitals includes a return on net property, plant and equipment (property, plant and equipment less accumulated depreciation) used in hospital operations, an allowance for working capital, and other considerations as determined to be appropriate by the commission.
- (A) The value for net property, plant and equipment shall be derived from the balances at the end of the hospital's current year, as approved by the commission, and the projected balances at the end of the budget year. An average shall be calculated. The average of the net property, plant and equipment shall be the base upon which the return shall be calculated.
- (I) Any capital expenditures contained in the projected balances at the end of the budget year which are subject to certificate of need approval will be excluded from the base until such time as the certificate

of need has been issued by the department of social and health services.

(II) Any assets contained in net property, plant and equipment that do not relate to hospital operations, as defined in the commission's "Accounting and Reporting Manual for Hospitals", pursuant to WAC 261-20-030, will be excluded from the base.

(B) A return on net property, plant and equipment as determined in (1), (11), and (111) below shall be presumed appropriate; however, the commission may vary from that return, higher or lower, where

appropriate.

(1) The rate of return on equity financed net property, plant and equipment shall be calculated by averaging the reported interest rates on twenty-five year "A" rated tax-exempt bonds as reported in each issue of "Rate Controls" from the three months ending on August 31, 1987.

(II) The rate of return on debt financed net property, plant and equipment shall be a blended average of each hospital's average interest rate on long-term debt and the rate of return on equity financed net property, plant and equipment. The blending schedule is as follows:

(aa) For hospital fiscal years beginning in 1988: Fifty percent – each hospital's average interest rate on long-term debt, fifty percent – rate of return on equity financed net property, plant and equipment;

(bb) For hospital fiscal years beginning in 1989: Twenty-five percent - each hospital's average interest rate on long-term debt, seventy-five percent - rate of return on equity financed net property, plant and equipment;

(cc) For hospital fiscal years beginning in 1990 and each year thereafter: Zero percent - each hospital's average interest rate on long-term debt, one hundred percent - rate of return on equity fi-

nanced net property, plant and equipment.

(III) After computation of the return on net property, plant and equipment, allowable interest expense on long-term debt shall be de-

ducted from the computed return.

(C) Working capital increases, if requested, shall be added to the return on net property, plant and equipment for determination of the total capital allowance. Working capital increases up to thirteen and one-half percent of the increase in net patient services revenue from the approved budget in the current year to the approved budget as determined by the commission in the requested year shall be presumed appropriate; however, the commission may vary from that allowance, higher or lower, where appropriate.

(I) The commission may determine that a hospital which is found essential to assure access of the rural public to basic health care services is experiencing financial distress and may determine to vary from

the allowance for working capital.

(II) The commission may determine to allow additional working capital where the hospital can demonstrate to the commission's satisfaction that its payer mix would require additional funding of accounts receivable. In the event that increased working capital is determined by the commission to be necessary, but the amount of working capital is found by the commission to cause an excessive impact on total revenues or rates, the commission may choose to allow the hospital to borrow the necessary cash and to allow interest on borrowed cash as an operating expense in the budget year.

(D) The commission may consider other elements in the determination of appropriate capital allowance for inclusion in total rate setting revenue. These considerations include, but are not limited to, the fol-

lowing elements:

(1) Rural hospitals that have been under-capitalized as determined by an average accounting age of property, plant and equipment which exceeds one hundred fifty percent of the state-wide average; and a total turnover rate of assets which exceeds the upper quartile of far west hospitals of the same size category as defined in the latest "Hospital Industry Analysis Report" of the healthcare financial management association or a fixed asset turnover rate which exceeds the upper quartile of far west hospitals of the same bed size category as defined in the latest "Hospital Industry Analysis Report" of the healthcare financial management association, provided that:

(aa) The total level of capital allowance for under-capitalized hospitals should not exceed one hundred twenty-five percent of the base-

line level; and

(bb) The requested rate per adjusted admission, as revised to reflect the hospital's case mix index, does not exceed the peer group median; and

(cc) The resulting increase in the rate per adjusted case mix value unit does not exceed one hundred twenty-five percent of the budgeted peer group median rate of increase.

(II) Whether that portion of debt principal payments which exceeds the total depreciation expense in the budget year should be allowed;

(III) Whether the capital allowance should include equity funding or accumulation of funds for a project in the future, if the hospital's rate per adjusted case mix value unit is at or below the median of its peer group, the proposed project is consistent with the hospital's longrange plan and financing plan which have been approved by the hospital's governing body, and any equity funding allowed in total rate setting revenue is maintained in a separate subaccount within board designated assets and cannot be used for any other purpose without prior approval of the commission;

(IV) If the hospital has an approved certificate of need and related financing consistent with the approved certificate of need and the impact on rates of the additional funding is determined not to be exces-

sive by the commission; and

(V) Other considerations proposed by the hospital or other interested persons and determined to be appropriate by the commission, including the impact that any deviation from the baseline capital allowance will have on the commission's ability to achieve total state-wide hospital revenue that do not exceed the target dollar amount of total state-wide hospital revenue as adopted by the commission in accordance with RCW 70.39.150(6).

(ii) The capital allowance for investor-owned hospitals shall be determined by applying a return on capital to the average current year and budget year net property, plant and equipment and working capital. The commission shall determine, by October 15 of each year, a rate of return based upon the Capital Asset Pricing Model (CAPM) ex

ante methodology.

(A) The return on equity capital will be determined as follows:

- (1) The risk free rate to be used in this methodology will be the latest interest rate, as of October 15, 1987, on long-term government debt.
- (II) The risk premium will be determined by subtracting the risk free rate from the projected three to five year average return on all stocks reported by Value-line, through the Value/Screen Plus data

(III) The beta will be the average of all hospital management firm betas, as reported by Value-Line, through the Value/Screen Plus data base.

(IV) The rate of return on equity capital will be divided by the inverse of the appropriate tax rate to be converted to a pre-tax cost of equity capital.

(B) The rate of return on debt capital will be the firm's embedded cost of debt as determined by averaging the interest rates of all bond

and long-term debt issues of the firm.

(C) The rates of return on equity and debt capital will be blended with zero cost capital according to the average capital structure of those hospital management firms that are contained within the Value/

Screen Plus data base.

- (D) The blended rate of return on capital will be applied to the sum of net property, plant and equipment and working capital to determine the total return on capital, from which the firm will pay any applicable income taxes and interest expense, and will make any equity contributions to the hospital. No additional capital allowance will be approved by the commission.
 - (f) Whether the budgeted deductions from revenue are appropriate:
- (i) Contractual adjustments related to governmental programs, such as Titles V, XVIII, XIX of the Social Security Act, Department of Labor and Industries, self-insured workers' compensation, Veteran's Administration, and Indian Health Service are allowable.

(ii) Contractual adjustments related to bank card discounts, negotiated rates and all other nongovernmental-sponsored patients are not allowable as deductions from revenue for rate setting purposes;

(iii) Selective contracting with Medicaid, labor and industries and self-insured workers compensation are specifically excluded from negotiated rates, and related contractual adjustments are allowable as deductions from revenue for rate setting purposes;

(iv) Bad debts and charity will be trended as a percentage of total rate setting revenue over time and any significant changes will require

justification; and

- (v) Administrative adjustments exceeding one-tenth of one percent of total rate setting revenue will require justification;
- (vi) Deductions from revenue may be recomputed based on determinations in all other areas of the budget.
- (g) Whether the reviews performed in accordance with (a), (b), (c), (d), (e) and (f) of this subsection result in rates, rate schedules, other

- charges, and changes therein which are the most reasonable under the circumstances.
- (i) Rate setting revenue per adjusted case mix value unit should not exceed the 70th percentile of the peer group revenue screens as adjusted for each hospital's case mix index unless the hospital demonstrates to the commission's satisfaction that the relatively high rates are acceptable;
- (ii) After allocating deductions from revenue and capital allowance to the various hospital revenue centers as a constant percentage of operating expenses, cross subsidization shall not exceed plus or minus five percent of expenses for rate setting, unless the commission concurs with a specific hospital request for larger levels of cross subsidization;

(iii) The commission may consider any other information it determines is appropriate as the basis for deviating from these criteria including the relative level of deductions from revenue experienced by

the hospitals;

- (iv) If the rates are not approved as requested, including the disapproval of requested cross-subsidization levels, the hospital must submit revised rates to the commission within twenty days of the date of service of the decision and order. Upon notification that the rates are in accordance with the decision and order, the approved rates are the maximum revenue that a hospital may receive for each unit of service, except for such rate changes as may be necessary to reflect differences between approved and actual volumes and deductions from revenue. Variable costs associated with changes in volumes will be determined in accordance with the variable cost ratios as described in (6)(d) below.
- (6) Whether the rates implemented and revenues collected by the hospital in the previous budget year conformed to the applicable commission determination for that year.
- (a) Conformance will be determined by comparing, at the end of the budget year, actual revenues for the budget year to commission-approved revenues, on the basis of the aggregate rate per adjusted case mix value unit. The revenues may be modified, where appropriate, for volume variance between budgeted and actual levels of adjusted case mix value units
- (b) Actual allowable, rather than budgeted, deductions from revenue will be used in the conformance calculation
- (c) The approved capital allowance shall be considered a fixed cost when considering year-end conformance.
- (d) Only that portion of total operating costs designated as variable according to the following schedule will be adjusted for volume variance:
- (i) Peer Group A and specialty hospitals having fewer than fifty beds; fixed costs - eighty percent, variable costs - twenty percent;
- (ii) Peer Group B and specialty hospital having from fifty to one hundred seventy-five beds; fixed costs - sixty-five percent, variable costs - thirty-five percent; and
 (iii) Peer Group C and specialty hospitals having more than one

hundred seventy-five beds; fixed costs - fifty percent, variable costs fifty percent.

- (e) Alternatively, the hospital may submit suggested ratios of fixed costs to variable costs by natural classification of expense. Upon approval by the commission, such approved ratios will be used only prospectively to determine allowable operating expense variance due to volume changes.
- (f) The hospital may submit any proposed justifying information to explain deviations/variances from approved revenues.
- (i) Any proposed justifying information must include at least the following supporting information:
- (A) The exact nature and extent of the factors contributing to excess revenue;
- (B) The date at which hospital management became aware of the factors contributing to excess revenue;
- (C) The date at which hospital management increased rates above the allowable level taking into account volume changes and actual deductions from revenue;
- (D) An explanation of efforts to reduce other components of the budget to offset the factors contributing to the excess revenues; and
- (E) An explanation of why the hospital did not seek a budget amendment.
- (ii) In no event will increased operating expenses be accepted as justification if the volume adjusted allowable operating expenses equal or exceed the actual level.

(iii) In no event will proposed justifying information be accepted if the commission determines that the factors contributing to excess revenues could have been controlled by hospital management.

(iv) In no event will proposed justifying information be accepted if the commission determines that the factors contributing to excess revenues could have been anticipated by the hospital or could have been identified by the hospital in sufficient time to submit a budget amendment in accordance with WAC 261-20-045.

(v) In no event will capital allowance in excess of the approved level

be accepted as justification.

(vi) Hospitals will be allowed to retain any actual capital allowance in excess of the approved level that results from cost effective practices as defined as, and measured by, actual operating expenses that are be-

low the volume adjusted approved operating expenses.

(g) Staff shall notify each hospital found to be out of conformance within sixty days of receiving the hospital's year-end conformance reports. If the commission determines that a hospital's revenues have not conformed to the applicable determinations for that year, a decision and order will be issued reducing the hospital's current budget and rates by the amount that actual revenues exceed allowable revenues.

(7) Whether the hospital or its medical staff either adopts or main-

tains admission practices or policies which result in:

- (a) A significant reduction in the proportion of patients who have no third-party coverage or who are unable to pay for hospital services;
- (b) A significant reduction in the proportion of individuals admitted for inpatient hospital services for which payment is or is likely to be less than the anticipated charges for or costs of such services; and
- (c) The refusal to admit patients who would be expected to require unusually costly or prolonged treatment for reasons other than those related to the appropriateness of the care available at the hospital.

THE WASHINGTON STATE REGISTER, published pursuant to RCW 34.08.020, is distributed on the first and third Wednesdays of each month. The Register contains the full text of proposed, emergency, and permanently adopted rules of state agencies, executive orders of the governor, notices of public meetings of state agencies, rules of the state supreme court, summaries of attorney general opinions, and juvenile disposition standards which have been filed in the code reviser's office prior to the pertinent closing date for that issue of the Register. A cumulative table of existing sections of the Washington Administrative Code (WAC) affected by a particular agency action guides the user to the proper volume of the Register.

The code reviser's office has established an annual subscription price of \$150 for the Register, and single copies will cost \$7. Sales tax of 7.8% now applies to all sales other than to state agencies. State law requires payment in advance. To subscribe to the Register, please complete the order form above and forward it to the address indicated, accompanied by your check or money order in the amount of \$161.70 (\$150 for state agencies) payable to the code reviser's office.
